Japanese Agree to Exchange Views On Disarmament Plan

Prepared to Send Delegates to Washington to Meet Men of Other Nations; No Mention of Pacific Conference In Reply to Harding.

Washington, July 14.—Japan's acceptance of President Harding's suggestion that a conference to discuss limitation of armaments be held was received at the State Department to-day, but made no reference to the question of a discussion of Far Eastern questions.

Unqualified acceptance by the Chinese Government also was received.

State Department officials would make no comment on the form of the Japanese reply, which was not made public in text.

Silence of the Japanese Government as to discussion of the Far Eastern problems was not believed, however, to have interposed any serious obstacle to the carrying out of the plan. It was indicated that the formal invitation would be forwarded to Japan as to the powers which have transmitted full and unqualified acceptance, and in the end officials believed Japan would agree to participation in the dual programme.

DUTCH DEBATE ARMY REDUCTION

No Agreement Yet Between Two Houses

The Hague, July 14.—The second chamber of the Dutch Parliament has failed to reach an agreement on the proposed reduction of the army. It decided, however, at its last sitting before the Summer recess to reduce the contingent of 1921 conscripts from 23,000 to 12,000 men, leaving the general military problem to be considered when the Chamber reassembles in September.

FRENCH COMMENTS ON DISARMAMENT

Paris-Temps Wishes Protection for France

Paris, July 13.—The semi-official Temps, commenting to-day upon what it terms the "criticism of irreconcilable Senators" that President Harding was wrong in inviting France and Italy to a conference in Washington, "as France, in particular, would be sure to refuse to consider any limitations on land armaments," has this to say:

"If the conference should be the means of reviving and giving a lasting character to the Anglo-French-American convention of June 24, 1919, then the peace of Europe would at last be complete and we could profitably examine the problem of land armaments."

"On the contrary, should the conference mean that the conventions of 1920 are incompatible with the present British and American policies, then France, having no guarantee, would have to reserve full political and military liberty."

FOUR KILLED IN AEROPLANE SMASH

Machine Fell To-day at Modesto, California

Modesto, Calif., July 14.—A six-passenger monoplane of special construction which was "blazing a trail" for commercial flying between Oakland and the Yosemite Valley crashed earth here to-day, killing the pilot, Harold (Bud) Coffey and three passengers. The machine struck a high tension wire in falling and it was set afire and its occupants burned to death. Coffey was identified by a ring which he was known to possess.

The plane was one which had been turned over by the Jacuzzi Brothers' Aeroplane Company of West Berkeley.

Beside Coffey it was believed to have contained a member and two employees of the firm.

The bodies were badly mutilated and turned and so tightly wedged under the wrecked machine that it was an hour or more before they could be extricated.

The aeroplane fell 600 feet. It is supposed that the engine became suddenly stalled in mid-air.

TYPHOID CASES IN ST. JOHN, N.B.; WATER IS CAUSE

St. John, N. B., July 14.—Reports from the General Hospital here reveal fifteen cases of typhoid, all having developed within the last few days. They are supposed to have resulted from drinking the city water, which the Board of Health has warned against unless it is boiled.

POPULATION OF WASHINGTON STATE ABOUT 1,380,000

Washington, July 14.—The population of Washington State increased nineteen per cent. between 1910 and 1920, while the negro population increased 12.5 per cent. The Census Bureau announced to-day. Enumerators in 1920 reported 1,319,777 white people, 4,833 negroes, 9,061 Indians, 22,363 Chinese, 17,287 Japanese and Filipinos, Hawaiians, Hindus, and Koreans to a total of 1,150.

Foreign-born white people constituted 18.4 per cent. of the total population in 1920 as against 21.1 per cent in 1910.

Australasians Wish Share In Washington Event

London, July 14.—It is understood that the Dominion Prime Ministers, although they officially dealt yesterday with the question of Empire communications, also discussed unofficially representation of the Dominion Governments at the proposed Washington conference, according to The London Times.

Premier Hughes and Premier Massey are said to hold the view that Australia and New Zealand should certainly be represented.

"There is reason to believe that delegates from the Dominions would be warmly welcomed by the United States Government," says The Times, adding that the reply of the United States Government—that a preliminary exchange of views on the question of the policy in the Pacific might be held in London before the departure of the Prime Ministers has not yet been made known but is under President Harding's consideration and is expected at an early date.

Welcomed. Melbourne, July 14.—Acting Premier Cook, speaking in the Commonwealth Parliament to-day, heartily welcomed President Harding's proposal for a conference at Washington. Mr. Ryan, Labor leader, and Mr. Watt, former Liberal leader, followed the same line. All of them advocated Australia being represented at the conference.

NOT ADVERTISING FOR IMMIGRANTS

Ottawa Wrongly Reported Using British Papers

Toronto, July 14.—The delegation of ratepayers urging the Board of Control to petition the Canadian Government to stop advertising in Great Britain for immigrants, the suggestion that the ratepayers had been doing any advertising for immigrants in Great Britain, in view of employment conditions in Canada, so the protest from the Toronto Board of Control is rather ill-founded. It is declared an official of the Immigration Department this morning.

The Toronto Board, acting on a request of a deputation of ratepayers, decided, according to a press dispatch, to petition the Federal Government to stop advertising for immigrants in Great Britain. If this was not complied with the Board was going to advise Canadian unemployment conditions in English papers.

No Advertising. Ottawa, July 14.—(Canadian Press) At the present time the Federal Department of Immigration is not doing any advertising for immigrants in Great Britain, in view of employment conditions in Canada, so the protest from the Toronto Board of Control is rather ill-founded. It is declared an official of the Immigration Department this morning.

Quebec Suffers. Quebec, July 14.—Hon. J. E. Caron, Minister of Agriculture, says that owing to the drought the agricultural situation in this province has been ideal, but the distribution has been irregular. Many districts have had sufficient rainfall and some too much, and others need rain.

What is most alarming, he added, is that the farmers are becoming discouraged and are selling their cattle at ridiculous prices, a process that will seriously affect the dairy industry.

Mr. Caron said circulars would be distributed this week urging the farmers to conserve their milk cows at all costs.

AN ARBITRATION. CHILD DROWNED.

Toronto, July 14.—Sir Adam Beck has been named by the Board of Control as the city's arbitrator in the acquisition of the Toronto Suburban Railway Company.

Winnipeg, July 14.—In an attempt to recover a ball which had rolled into the water, May Tynchuk, a year-old of this city, was drowned in the Red River yesterday afternoon.

Island to Manufacture Silos For World Market

To supply Canada, the United States and later Australia and New Zealand with the latest type of wooden farm silos, the Hoard Company has been formed with headquarters at Alberni by Clarence Hoard, owner of the Bainbridge Lumber Company, and formerly president of the Victoria Shipowners, Ltd. The new company will receive a Dominion charter within the next few weeks and manufacture of silos will commence at Alberni some time this month, Mr. Hoard announced to-day.

Mr. Hoard, who is one of the best known of British Columbia lumbermen, has secured the patent rights to the new silo both in Canada and the United States and his company intends to develop the silo business until it is supplying all parts of the continent. The market for silos, Mr. Hoard states, is almost unlimited and will continue to expand with the growth of the farming industry. Farmers all over the continent are using silos now to store feed for their stock, and the use of silos is being encouraged by the agricultural authorities of many Canadian provinces and States of the Union. The patent rights to the silo to be manufactured in Alberni were held until recently by a California firm which discontinued the business because it was unable to keep up with its orders.

A New Type of Silo. The silo to be manufactured at Alberni is different from other silos in that it is put together without the use of bolts, 1,500 bands or fastenings of any kind. It is an eight-sided wooden tower made of planks which are laid parallel to the ground and (Continued on page 14.)

SEVEN VICTIMS TAKEN IN FEW DAYS BY NIAGARA

Niagara Falls, Ont., July 14.—The Niagara River has taken a very heavy toll during the past few days, seven men having lost their lives by drowning. All except one case are believed to have been accidental.

The body of Donald Gordon McLeod, a local man who was drowned at Old Indian Trail Sunday morning, has been found.

The body of an unidentified man found in the river Tuesday was covered with bruises and knife slashes and is believed the man met with foul play.

PLAN MEMORIAL TO DEAD HEROES

Fifth Regiment Companies' Funds to Be Used

Two Opinions on Best Method of Distribution

The finances of the Fifth Regiment, Canadian Garrison Artillery, and disposition of company funds accumulated in a long military history, were subject of keen debate at the Drill Hall on Tuesday evening, when some sixty men, who had been members of the regiment prior to its disbandment, met to discuss the best method of distributing the funds. A provision of the old unit and thereby a lack of any corporation against the total of approximately \$1,500, it was better to use the total for some permanent war memorial to the Regiment, or to distribute the funds in two main aspects under debate.

New Regiment Supported. Finally the meeting unanimously resolved that the company funds of the old Fifth Regiment should be turned over to the present organization.

A provision of the old unit and thereby a lack of any corporation against the total of approximately \$1,500, it was better to use the total for some permanent war memorial to the Regiment, or to distribute the funds in two main aspects under debate.

One of the features adding interest to the divergence of opinion was the proposal advanced by Lt.-Col. Angus and many of the men of the old regiment that the funds in hand, combined with the as yet untouched \$1,200 earned by the Regimental Women's (Continued on page 14.)

ALBERTA CAMPAIGN IS IN FULL SWING

Provincial General Election Next Monday

Calgary, July 14.—(Canadian Press) The campaign leading up to the Provincial general election next Monday is at its height throughout Alberta and interest in the outcome of the election is growing. It is estimated that the headquarters of the Farmers' organization that this body, most of whom are voters, constitutes approximately twenty-five per cent. of the total electorate.

Leaders in the Farmers' movement decline to predict the result of the election, in which there are forty candidates recognized officially by the organization and several more whose sympathies run in the direction of the United Farmers of Alberta, and whose support could be counted with considerable confidence in the event of a Farmer victory at the polls. It is fair to say, however, that they will be surprised if a majority of the sixty-one members in the next Assembly are not United Farmer representatives.

In Agreement. The Farmers' movement is associated closely with the campaign of the United Farmers of Alberta, a group of agriculturists and a working agreement such as exists in Ontario might be seen in Alberta should such an arrangement ensure a majority in the House for the combined groups.

One Labor man and one Farmer are opposing jointly two Government candidates. In Lethbridge the Farmers are supporting the Labor candidate against Brig.-General J. S. Stewart, Conservative, and there is no Liberal in the field. In Calgary the Farmers also are giving their assistance to the Labor ticket, and in Edmonton the single Farmer candidate is working in co-operation with the Labor candidates. In Didsbury, which includes the Drumheller constituency, the Farmers are supporting the Farmer candidate against the Liberal.

Speculation. Much gossip and speculation centre on the question of the premiership should Hon. Charles Stewart's Government meet defeat by the election of a Farmer majority. H. W. Wood, president of the United Farmers of Alberta, has declined to make any statement on the subject of his own position in the event, but it is stated that he has never put himself on record as opposed to assuming any responsibility which it is the wish of the organization that he should undertake. The name of Herbert Greenfield of Westlock is mentioned as that of one who would receive a good deal of support. Mr. Greenfield is a member of the Central Executive of the United Farmers (Continued on page 14.)

ROUMANIANS AND JUGO-SLAVS SIGN DEFENCE TREATY

London, July 14.—The text of the defensive treaty signed recently between Roumania and Jugo-Slavia is given in a dispatch to The London Times from Bucharest. Under the terms of the treaty, as officially gazetted, each nation undertakes to help the other in case of an attack by Hungary or Bulgaria, aimed at disturbing the order established by the treaties of Trianon and Neuilly between the Allies and Hungary and Bulgaria, respectively.

U. S. REFUNDING OF ALLIED DEBTS

Washington, July 14.—A letter from Premier Lloyd George to President Wilson dated August 8, 1920, dealing with a proposal for cancellation of Inter-Allied war debts was placed in the record to-day by Treasury officials during hearings on the administration's Allied loan refunding bill.

A cablegram on the same subject from the British Chancellor of the Exchequer to R. C. Lindsey, representing the British Treasury in this country, which was transmitted to the Assistant Secretary Lansing, well of the Treasury Department, also was presented.

CHOLERA PLAGUE CONTINUES TO SPREAD AMONG RUSSIANS

Riga, July 14.—More than 5,000 new cases of cholera have been reported in Russia in the last fortnight, says The Moscow Inversta. The newspaper says registration of the disease is admittedly incomplete.

All departments of the Soviet Government are said to be concentrating for a fight against famine and cholera.

CITY GETS MORE HOUSING MONEY

To Receive Full \$180,000 Allocation Under Scheme

Victoria has secured \$180,000 more for housing purposes from the Provincial Government. Mayor Porter announced to-day. This fact, loans totaling this amount, in fact, loans the total amount received by the city under the Better Housing Scheme up to \$180,000, which was Victoria's original allocation. Loans already authorized by the Civic Housing Committee already have absorbed more than \$170,000 of this.

The Mayor has called a special meeting of the City Council for tomorrow afternoon to ratify an agreement in accordance with which the city will accept the extra \$10,000 from the Provincial Government. The Government notified the city some weeks ago that it could allow Victoria \$20,000 more under the housing scheme, but the civic authorities learned later that the amount had been increased to \$40,000.

Make Thirteen Loans. As soon as it received word that the city would get \$30,000 more, the Housing Committee considered loans totaling this amount. It has already authorized slightly more than this sum and will absorb part of the extra \$10,000 now available. So far the committee has authorized eleven loans, six of which have been approved by the City Council.

It is thought that Alderman Sanster, who recently resigned as chairman of the Housing Committee, may take the opportunity to-morrow afternoon to restore the amount which led to Alderman Sanster's resignation from the committee.

Mayor Porter, who is now a member of the committee, explained this morning that loans were extended to two soldiers who agreed to purchase lots if they were granted money under the housing scheme.

SEATTLE BANDITS GOT \$25,000; WERE PURSUED

Seattle, July 14.—Two bandits shortly after 10 o'clock this morning snatched a bag containing \$25,000 in currency from the premises of the Northwest Trust and Safe Deposit Company and escaped in an automobile pursued by a taxicab driver who had witnessed the affair. Police throughout the city were notified and other cars took up the chase.

BRITISH BOY KILLED IN ITALY BY EXTREMISTS

London, July 14.—The Hon. Lucy Katherine Beckett, daughter of the Second Baron Grimthorpe, was wounded and her son James killed when their automobile was fired on last night near Viterbo, in the Lazio region of Italy, by a band of Italian extremists.

Two girl companions and the chauffeur were wounded in the attack, which was made in the belief that the automobile was carrying Fascists. For several days past fighting has been going at Viterbo between Socialists and Fascists, or extreme Nationalists.

ALCOHOL CARGO OF SAILING SHIP SEIZED AT BOSTON

Boston, July 14.—Tacking a search warrant to the foremast of the barque Tiburon in the absence of the captain to receive it, prohibition enforcement officers last night raided the vessel, whose mission has been a mystery since her arrival here from New York two weeks ago, and seized the cargo, which officials said consisted of 25,000 gallons of alcohol, valued at \$275,000.

The prohibition agents found 250 casks of 190 proof alcohol aboard.

Model Town for Ailing Veterans Near Kamloops

Ottawa, July 14.—(Canadian Press) A model town for tubercular returned soldiers may be established on a 7,000-acre tract of land across the North Thompson River at Kamloops, B. C., as a result of the investigation of the sub-committee of the Special Parliamentary Committee on Soldiers' Civil Re-establishment.

The report of this sub-committee indicates the feasibility of the scheme and the Department of the Interior and Thomas Adams, town planning adviser of Ottawa, are collaborating in an endeavor to have plans mapped out for presentation to the main committee on re-establishment at the next session of Parliament.

The forecast of the plan indicates that both industrial and agricultural possibilities will be incorporated in the model town. It is planned to build homes for soldiers who require treatment to make their cure permanent. In these homes the men will be able to live with their families.

From Indians. The land across the North Thompson River is now an Indian reservation, but it is understood that arrangements are under way whereby the Indians will be accommodated elsewhere and on terms satisfactory to them. It is proposed that the Government should retain the ownership of the land after the Indians have been removed.

The Government will, of course, build the model homes and generally supervise and manage the running of the colony. The climate at that point, says a report on the subject, is exceptionally dry and suitable for those suffering from pulmonary troubles. The closeness to Kamloops makes it possible for the residents of the colony to take advantage of the existing social facilities while two railways make transportation and communication assured.

Waterpower. The site of the proposed colony has already been inspected by Mr. Adams, who suggests that an immediate report should be made as to the water power opportunities and on the availability of water for irrigation.

The plan is being supported by members of the Parliament, by the city of Kamloops, by the Great War Veterans' Association and by hundreds of returned men who are suffering from tuberculosis.

It is expected that the Parliamentary Committee on Soldiers' Civil Re-establishment will urge action in its report at the coming session and it is likely that the Spring of 1922 will see a start made toward the construction of the town with all the necessary facilities for treatment and for work.

Lloyd George and De Valera Conferred In British Capital

Official Statement Issued After Meeting Said There Had Been a Free Exchange of Views; Positions Defined; Another Conference To-morrow.

London, July 14.—Eamonn de Valera and Premier Lloyd George conferred for more than two and a half hours to-day over the question of an Irish settlement. The Irish "republican" leader arrived at the Prime Minister's official residence in Downing Street at 4.30 p.m. and left at 7.10 p.m.

At the conclusion of the conference Art O'Brien, president of the Gaelic League in London, stated that it had terminated "amicably."

As was agreed upon, a communique regarding the conference will be issued later.

London, July 14.—(Associated Press)—Eamonn de Valera, the Irish "republican" leader, arrived at No. 10 Downing Street at 4.30 o'clock this afternoon for his conference with Premier Lloyd George.

SIR JAMES CRAIG, ULSTER PREMIER, CALLED TO LONDON

London, July 14.—(Associated Press)—Sir James Craig, the Ulster Premier, has been summoned to London to confer with Premier Lloyd George on the Irish situation. It was announced here this afternoon. Sir James is at present in Belfast.

Belfast, July 14.—Sir James Craig, the Ulster Premier, still is in Belfast. It was reported last night that he had started for London.

Notwithstanding a drizzling rain a great crowd, which gathered at the entrance to Downing Street waited patiently for some announcement from the momentous meeting. Shortly after 2 p.m. Valera entered the Prime Minister's house the crowd knelt in Whitehall and began to recite the Rosary.

POLICE RESTORED ORDER IN BELFAST

Bomb Thrown During Riot This Morning

Belfast, July 14.—(Associated Press)—Rioting broke out again in the Cork Street area here this morning. A bomb was thrown and damaged a grocery store, which also was looted, and another house was set afire. A number of people were slightly injured by snipers. Several windows were broken. The police managed to restore order without being compelled to use force.

Truce. Belfast, July 14.—Associated Press—Alderman Michael Staines, member of the British House of Commons for Dublin, who was released from Mount Joy prison on June 30, arrived in Galway yesterday. As a commander in the "Irish Republican Army," Staines handed District Commissioner Cruise a document from the authorities in Dublin Castle, authorizing him to act as liaison officer to ensure observation of the truce.

It was the first time De Valera had spoken for publication since his arrival in London Tuesday evening. This is simply a private conference with Mr. Lloyd George instead of a long range bombardment to see what can be done for a lasting peace in Ireland is brighter than it has been in history, declared Eamonn de Valera, the Irish "republican" leader, as he was about to enter into conference to-day with Premier Lloyd George in an attempt to find a basis for an adjustment of the Irish problem.

Asked what he considered were the prospects of peace, De Valera replied: "The outlook is brighter than it ever was in history."

"I am sure," he added, "that the atmosphere in England and Ireland is right for peace. The only thing that is necessary now is for us to get down to rock bottom."

HARD LUCK!

The stranger in New York gazed at the magnificent hotel. "A remarkable building," he commented. "Waal, yes; and I may say, sir, that I helped to build it," said the guide. "One day, while working about 500 feet up, I slipped. Even now I can hear the shrieks of the people below. I thought my last hour had come, when my trousers caught on a friendly nail. The position was dangerous, and it was an hour before I was rescued."

"When pay-day came along I found that my money was short, so I went to the cashier. 'See here,' I said, 'my pay's short this week. How's that?' 'Oh, he replied, 'they've stopped you for the time you were hanging on the nail.'—Tilt-Bits.

Michael McCarthy, whilst seated on his front doorstep one fine evening, was greeted by Patrick Flannigan, his neighbor.

"A fine evening it is, Mike; but how is it the missus isn't wid yez enjoying the airin'?"

"Ah, Pat, the missus has gone for a change of air."

"Then, sure, Mike, Oi hope the change will be after doing her good. Oi'm supposing she's gone to Blackpool."

"Then, begorra, ye'll be supposing wrong, Pat. Shure, she's seated on the back doorstep!"

Letters Are Interesting

Last week we asked for a recipe for Yorkshire pudding. We have not counted the letters received, but there are quite a number. All the recipes are very good. We tried them.

From another standpoint such communications have a great interest to us. Nearly every woman has something nice to say about the general use of Pacific Milk for cooking and baking.

Often we learn a new use for the milk in this way.

THE ONLY SHADY SPOT

A very stout woman, bustling through the park on a hot day, became aware that she was being followed by a roughly-dressed lad. "What do you mean by following me in this manner?" she demanded, indignantly.

The boy hung back a little. But when the woman resumed her walk he again took up his position directly behind her.

"Look here," she exclaimed, whirling angrily, "if you don't go away at once, I shall call a policeman!"

The unfortunate lad looked at her appealingly.

"For goodness' sake, kind lady, have mercy on me, an' don't call a policeman. You're the only shady spot in the park!"—Tilt-Bits.

SAYS IT WAS AGONY TO MOVE A MUSCLE

Vancouver Business Man Flat on His Back Five Weeks—Is Now Restored to Health

"I was flat on my back with rheumatism, and had been for five weeks when I began taking Tanlac," said William Sumner, 605 Eighth Avenue, West, Vancouver, B. C., brick and cement builder.

"For several years I had been bothered with rheumatism in my left leg, but it was never serious enough to knock me out entirely. One day, however, while working on a boiler I got wringing wet, and did not change my clothes for some hours. As a result of this exposure rheumatism set up in my leg so bad that the next morning when I managed to get from my bed to the couch I was not able to get back to my bed, and actually had to lie on that couch for over five weeks, as I was in such pain I couldn't bear to have anybody touch me. I couldn't even move a muscle without suffering intense agony, and of course I got little sleep."

"This was the awful condition I was in when I began to take Tanlac. The first bottle did me little good, but, fortunately, I persisted in taking it, together with the laxative tablets, and after a while I began to rapidly improve and, almost before I realized it, I was able to be up and back at work. This was over a year ago, and I haven't had a touch of rheumatism since. Not only that, but I feel twenty years younger than my age, and I give Tanlac the entire credit."

Tanlac is sold in Victoria, Duncan & Campbell.

Vancouver Island News

Sayward, V.I., July 14.—Dominion Day was joyfully celebrated by the residents of Sayward by holding a "basket" picnic. The weather was ideal, and long before the appointed time of meeting teams carrying the residents and their families could be seen wending their way to the picnic grounds which had been kindly loaned by G. Lawson. There was a good crowd present and a splendid time was spent. Tea was served at 5 o'clock. There was a good programme of sports provided which was enjoyed by the children. Rev. G. Pringle, who was present, threw a good deal of life into the sports. The celebration was brought to a close with a dance.

Mr. and Mrs. Jack Loyns have been the recipients of congratulations from all parts of the district on the arrival of their first child, a baby girl. Mrs. Loyns is the daughter of Mr. and Mrs. John Bellmore who are Sayward's pioneer residents, and they built the first hotel at Sayward. Mr. Bellmore died some years ago.

Rev. G. Pringle spent several days in the district last week and held church service last Sunday which was well attended. Mr. Pringle, who is a minister in the Presbyterian Church, gave a very fine talk in the course of which he said that he was greatly surprised at the development which has taken place at Sayward, and further stated that after spending several days visiting the various parts of the valley he had no hesitation in saying that the Sayward valley stood out to the new famous Okanagan Valley for agricultural possibilities and predicted a great future for the valley.

The weather during the past ten days has been all that could be desired for all crops. Haying commenced on July 8, which is earlier than usual for the district. There is an excellent crop of hay.

The annual school meeting was held on July 8 and the school trustees submitted a very satisfactory report for the year. During the reading of the report it was brought out that the school inspector during his last visit pointed out that the district was in great need of a new school house. Nominations were received for one school trustee to take the place of H. A. McDonald, whose term of office on the Board had expired. The names of H. A. McDonald and G. B. Armishaw were proposed, and on ballot being taken Mr. McDonald was re-elected for the term of three years. G. B. Armishaw was appointed auditor for the school Board. The ratepayers requested the Board to approach the Department of Education on the question for assistance for a new schoolhouse. Money was voted to meet the usual school expenses for the ensuing year.

Mrs. Thomas Hearn has left for Vancouver to visit her sister, Mrs. Mulhern, also to meet another sister who has been for some years on the continent, and whom she has not seen for a long period.

Master Harold Merillies, of Vancouver, is spending his holidays visiting his aunt, Mrs. J. B. Armishaw.

Holy Trinity Mission Hall
Happy Valley, July 14.—The twelfth annual outing of the Sunday School in connection with above, held at Witty's Beach, Metchem, on July 12, proved the most successful yet held by general consent of those fortunate enough to participate.

The weather was all that could be desired, the refreshments kindly provided by ladies of the congregation were unanimously voted to be the best possible.

During the afternoon sports were indulged in, Mr. Hearn presiding as excellent starter, while Messrs. Burnell and Baxter acted as judges to the unqualified satisfaction of all participants.

The following were the successful entrants:

Flat Race for Girls—1, Dorothy McKay; 2, Gwendy Pulver.

Flat Race for Boys—1, Norman Rhode; 2, Clarence Rhode.

Skipping Race for Girls—1, Dorothy McKay; 2, Nancy Cole.

Forward and Backward Race—1, Clarence Rhode; 2, John Stockand.

Three-Legged Race—1, Ernest Merton and John Stockand.

Long Jump—1, Gladys Dallimore.

High Jump—1, Nellie Fargo.

Wheelbarrow Race—1, Nancy Cole and Norman Rhode.

Sack Race for Boys—1, Arthur Baxter; 2, Norman Rhode.

Sack Race for Girls—1, Mary McKay; 2, Pluma Kennedy.

Egg and Spoon Race for Girls—1, Pluma Kennedy; 2, Mary Hall.

Throwing Baseball for Ladies—1, Mrs. Rhode.

Throwing Baseball for Gentlemen—1, Mr. Rhode.

Egg and Spoon Race for Boys—1, W. H. Rhode; 2, Arthur Baxter.

Ladies' Flat Race—1, Miss Baxter; 2, Mrs. Baker; 3, Mrs. Rhode.

Tug of War—Ladies vs. Gentlemen, won by the ladies by two pulls to 1.

After tea the prizes were presented by Mrs. Hall and the happy occasion was fittingly brought to a close by Rev. W. W. Winter, who expressed the thanks of the gathering to the ladies who kindly prepared meals; to Mrs. Burnett for a much appreciated gift of oranges; to Messrs. Burnell and Dallimore for generously providing motor transport, and to Capt. Baker, the Sunday School Superintendent.

Mill Bay School
Cobble Hill, July 14.—The annual meeting of the ratepayers of Mill Bay School District was called to order at 8 p. m. on Saturday evening. Trevor Keene was elected chairman.

J. A. Barry recorded the minutes. The minutes of previous meetings were read and accepted, also the trustees and auditors reports.

The estimates for ensuing year were favorably voted upon. The expenses for the last year being as follows:

Kalamining schoolroom, \$50; Janitor, \$15; fuel, \$30; cleaning schoolroom, \$10; cleaning latrine, \$20; travelling school entrance, \$10; stationery and accessories, \$25; purchase of clock, \$10; incidentals, \$25. Total, \$255.

The substantial balance at the bank of \$200 was considered sufficient to be voted.

T. P. Barry was re-elected auditor. J. A. Barry was re-elected trustee by acclamation.

The secretary was instructed to write a letter of condolence to Mrs. Nott and family regarding the death of Mr. Nott, former trustee. It was moved and seconded that the secretary be remunerated for services of the previous year, no dissenting vote.

A communication from the district health centre was tabled for further consideration.

The secretary was instructed to write the Education Department endorsing teachers request for increase of salary.

A vote of thanks was tendered the chairman. The meeting closed at 9.45.

Cobble Hill School
Cobble Hill, July 14.—The annual meeting of the ratepayers of Cobble Hill school district met in the school house between 7.30 and 8 o'clock, Dr. McPherson in the chair.

The financial report was read by the secretary and adopted.

On account of the auditor not being present the Auditor's Report was inspected by the ratepayers and adopted.

The amount of school assessment for the coming year amounted to about \$545, out of this sum \$240 being an advance to the Government grant of \$560 to bring the teacher's salary to the amount of \$120 per month.

A vote of confidence in the present teacher was put to the meeting and carried.

The trustee elected being Mrs. B. A. McMillan, who has served a number of years as trustee.

The minutes of the meeting were read and after some discussion as to their correctness they were adopted.

The meeting adjourned with a vote of thanks to the chairman and trustees.

Pleasant Resort
Nanaimo.—A miniature Coney Island is planned for Nanaimoites by two of the town's most famous residents and Perry who for some time past have been busy transforming a section of Protection Island bordering on "The Gap" into a resort which should prove attractive to the residents of Nanaimo and vicinity. The clearing of the underbrush and laying out of the grounds for picnic parties is only in the preliminary stage, the energies of the management having been directed towards the completion of a large dance hall.

Forthcoming Flower Show
Sidney.—A meeting of the garden committee of the North Saanich Women's Institute was held Tuesday night at the residence of Mrs. J. T. Taylor. The committee were Mrs. B. Deacon, Mrs. W. Whiting, Mrs. J. T. Taylor and Mrs. E. Blackburn. The meeting was held to make arrangements for the flower show, which will be held on Wednesday, August 17, when all ladies in the district are requested to show their work. There will be no charge for entry.

The following rules were drawn up: (a) All entries must be sent in to Mrs. Deacon not later than Saturday, August 14, and any entries received after that date will not be considered; (b) all exhibits must be in place by 10 o'clock on the morning of the show; (c) no prize will be awarded unless there are two entries in the same class; (d) one person cannot have two entries in the same class.

Cowichan Institute
Duncan, July 14.—The Cowichan Women's Institute held their monthly meeting on Tuesday, at the home of Mrs. G. Tiedall, The Grange, Somenos. It was perhaps not so well attended as usual, but those who did go certainly appreciated the beautiful grounds and flowers of all kinds. Mrs. Tiedall read a most capable paper on "ventilation" and it was decided that the institute should have the home produce stall at the fête at Maple Bay on August 4.

The meeting endorsed the Shawinigan Women's Institute resolution that two teachers should be allowed to a class of less than 40 pupils in the schools, instead of more than 40 as at present.

The baby clinic will be held again on Friday when it is hoped a larger number of mothers will attend. There will be no monthly meeting in August.

At the conclusion of the meeting Mrs. Tiedall served a delicious tea, several of the ladies assisting.

Lawn Tennis
Duncan.—Finals in the open tournament to be held on the South Cowichan Lawn Tennis Courts will be played on Saturday. Much interest is being displayed this year and entries are in from Victoria, Vancouver and Nanaimo.

Further results in handicap tournament gentlemen's singles are as follows:

THE TWO MEET.

Although the general public may be none the wiser after today's conference between Mr. Lloyd George and the leader of the Sinn Féin Party the significant feature of the proceedings is the fact that the British Prime Minister and de Valera have commenced to explore a way to peace at close range. The British Government and the British people realize that every shade of political and religious thought is anxious for a settlement of the whole question. Even the self-styled "President" of the "Irish Republic" and his more immediate colleagues must realize that the bulk of the Irish people are sick and tired of the wretched conditions which have converted the whole country into a battlefield. In addition to this very obvious outlook the sentiment prevailing throughout the world to-day demands an end of strife and a return to conditions in which men may follow their peaceful pursuits. Thus it must be patent to all those who will be required to deal with the intimate details that never since Erin's Isle became a "question" has the time been so opportune for its conversion into a land of peace and prosperity. The whole world and particularly that part of it which constitutes the British Empire will watch the proceedings at Downing Street with interest more easily imagined than described.

TUBERCULOSIS.

It never has been suggested that the Government's acquisition of Tranquille Sanatorium was intended to represent the sum total of an official campaign against tuberculosis in British Columbia. It may be that "nothing is being done now that was not done before," but the morning paper displays a woeeful ignorance of the subject in its assumption that the Administration across the Bay has merely added another responsibility to the many which it is obliged to discharge with the intention of letting it go at that. Nor should it be difficult for our contemporaries to appreciate the fact that it was necessary for the Government to acquire one of the "mother hospitals" which it itself describes as an essential factor in a fight of such vital concern and importance to the people as a whole. That is precisely what has been done and not more than three and a half months have elapsed since the institution at Tranquille passed from the control of the Anti-Tuberculosis Society into that of the Province.

The morning paper attempts to establish a guilty relationship between Government operation and what it has learned from the alarming report of the Victoria Medical Society. It observes and appears to infer that the corollary of state ownership and management at Tranquille "is a marked increase in the incidence and death rate from tuberculosis." Our contemporary is correct in its understanding of conditions in this Province; but the cause of this unhappy state of affairs is conveniently ignored in spite of the obvious nature of the trouble. In fairness to the intelligence of those who may pause to consider the details of the report to which the morning paper refers it is right and proper to point out that the Province of British Columbia has been and is being regarded more in the nature of a great sanatorium for the tuberculous population of this and other countries. Does it strike the critic of the Oliver Government's programme that the dry belt of British Columbia is almost as well known to Harley Street as is the Invalid's Walk at Bournemouth? Nevertheless it is quite true.

There is another and a highly important factor which has contributed to the condition referred to by the Medical So-

ciety's report. Former members of the C. E. F. have come to this Province in the hundreds because they know that there is no climate better suitable for the relief of chest troubles than that of which British Columbia may boast. Here is the real reason why "there is a marked increase in the incidence and death rate from tuberculosis." Here is the reason why the courageous commencement of a policy of State control in this Province should form the subject of Federal attention and Federal co-operation because British Columbia's fight against the great white plague has been made the more difficult by reason of its imported civil and military patients.

Our morning contemporary is correct in its opinion that after-care is as vital as institutional treatment. But does it recognize the fact that if the Province of British Columbia were to embark upon the whole programme that is actually needed at the present time it would require to ask the people of this Province for something like four and a half million dollars per annum? Does it realize in considering the question of after-care that there are twice as many patients in charge of the S. C. R. and in hospital at the present time as there were nine months ago? Most of these are recurrent cases of tuberculosis. Can the blame for this condition be laid at the door of the Provincial Government? Is it an argument against the acquisition of a "mother hospital" as a foundation upon which to erect the larger scheme as soon as the people are prepared to find the money—whether it be by Federal or local action?

If more people would take the trouble to visit Tranquille and see the work that is being carried on there there would not only be fewer critics; but there would also be more advocates of expanding measures. If those who complain that it is not enough—and it is not enough—would train their eloquence and their influence along channels from which the support for the greater programme must flow some good would be accomplished. Our morning contemporary may obtain the definite details of cost of state control if it desires to take the trouble and then use its influence with the people. It may rest assured that as soon as British Columbians agree to pay the price the Oliver Government will be ready to do all the morning paper advises. In the meantime discussion of the subject should at least be based upon an intimate knowledge of the facts.

TO-MORROW'S LUNCHEON.

The address to be given at the Canadian Club's luncheon to-morrow by Dr. J. W. Robertson, C. M. G., Dominion Commissioner of Boy Scouts, will be well worth listening to, as it will deal illuminatingly with one of the most beneficent movements in the cause of civilization in this generation. Supplementing the home and the school in the development of boy character and the promotion of good citizenship, the Boy Scout enterprise, initiated by Sir Robert Baden Powell only a few years ago, has attained world-wide proportions. We may safely assume that the members of the Canadian Club will show their interest in this splendid organization by attending the luncheon to-morrow, especially in view of Dr. Robertson's reputation as a clear and convincing speaker and as an educationist of international eminence.

AN AMUSING ATTACK.

It can be freely admitted that the Northcliffe press was a useful agency to Great Britain in more than one period of national danger; but its services to the nation by its exposure of weak spots in the country's armor in time of war is far from a guarantee that the people experience little more than a moderate amount of amusement when The Times springs one of its periodical political sensations. On that account popular sentiment will fling to the popular interpretation of Lord Northcliffe's latest attack upon the Prime Minister and his warning to the nation that the little Welshman is unfit to represent the British Empire at the forthcoming conferences to be held in Washington. The majority will agree

with some of the more outspoken commentators and look upon the incident as the sequel to an unspoken and unaccepted offer on the part of Lord Northcliffe himself to serve the Empire at Washington. Many people will look upon the incident as the type of political manoeuvre which provides the contrast between partisan feuds and matters of great moment in which all the peoples of the world are vitally and directly concerned. There will be those who may have no love for the Prime Minister but who will recognize in him something of the statesman as well as the politician whose actions in respect of great international problems should not be hampered by the gratuitous insults which spring from party prejudice and the indulgence of personal whim.

NOTE AND COMMENT

Now that the Liquor Board is to get something like 100,000 lots of "found" liquor why not a bargain sale at prices a little more in harmony with the value of the product?

According to a Lloyd's statement the United Kingdom has 2,813,000 tons more shipping under construction than the United States and that nearly sixty per cent. of the world's shipbuilding is being done by British yards. This hardly suggests a decadent nation.

Cabled advices reaching London indicate that the financial situation in South Africa is causing anxiety. What would have happened if Hertzog could have had his way? And we seem to recollect that there are other countries finding trouble in making receipts and expenditure harmonize.

The House of Lords has passed a bill legalizing a marriage with a deceased brother's widow. No longer is the deceased wife's sister's bill the only avenue of escape from matrimonial misfortune.

"The stars incline, but do not compel."

HOROSCOPE

THURSDAY, JULY 14, 1921.
(Copyright, 1921, by The McClure Newspaper Syndicate.)

Many stars smile on the earth to-day, according to astrology. Jupiter, Mars, Saturn and the Sun are all in benefic aspect.

Initiative of every sort is subject to the best possible direction of the stars. Business enterprises started to-day should bring large returns.

Leaders of thought should be fortunate in obtaining followers under this configuration, which seems to be more favorable to militarism than to disarmament.

Mars is in a place read as promising to soldiers, making for activity that brings them fame and fortune.

All the signs seem to indicate that the problem of army and navy policies will be made a prominent one, owing to some crisis that is not far off.

The bestowal of gifts or favors should be most fortunate if made under this rule.

To men and women who have won success, increase of good luck is promised. The signs seem to forecast emphasis on all conditions.

The poor will become poorer, the rich richer in the next few months the stars prophesy.

Saturn to-day seems to smile on farmers and agriculturists who should benefit from favorable weather conditions.

Much pageantry and many processions appear to be foreshadowed as helpful in some sort of propaganda, for there is very plainly foreshadowed a great national movement that will appeal to the emotions.

Astrologers declare that the United States is to face grave problems that have been ignored and evaded too long.

Again, thrift is urged and habits of economy should be cultivated without delay.

The King of Denmark is a ruler who is subject to malign influences at this time, it is foretold.

Persons whose birthdate it is have every good omen for the coming year.

Those who are employed should benefit. Children born on this day will be fortunate in their undertakings and likely to succeed easily. They often have great dramatic ability.

WOMAN KILLED.

Regina, July 14.—Mrs. J. W. Howie was instantly killed and two men were injured when an automobile containing four persons was overturned ten miles south of this city last night.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Daily Times, July 14, 1896

J. A. Sayward has taken over the Sayward mill and timber limits from the Sayward Mill Company. He will manage the company personally. B. G. Goward, Charles E. Wilson and Sydney Child have been successful in their preliminary law examinations. It is announced.

The new Laurier Government has assumed complete control of the nation's business at Ottawa. All Ministers have been sworn in and are managing their various departments. Among notable figures in the Cabinet are Sir Richard Cartwright, Minister of Trade and Commerce, and Sir Oliver Mowat, Minister of Justice. J. D. Edgar has accepted the speakership of the House of Commons, according to Ottawa dispatches.

RESIDENT.

capitalize itself in this Province and do something for itself, it could give employment to itself and be as prosperous as the greatest trust that ever existed.

This fishing industry, from what one can hear on the street, is in about the same box. The mining industry seems, if anything, to be worse off.

Now, if our main natural resources have failed, something else should surely be tried. Therefore, let us try the greatest of our assets, the scenery of B. C. Personally I have travelled over a great part of this Province during my thirty years' residence in it, and I have also travelled fairly extensively in the U. S. and in Europe and Great Britain, but nowhere have I seen scenery that surpasses the grandeur of British Columbia, and I have very rarely come across any that even compares with it in any way.

The people on the south of us are a great travelling people and very fond of scenery and travel, but they must know about it, somebody must tell them, tell them personally, impress them with the idea that it is worth while. It costs a lot of money to do that and it is the Government's business to further the general interest and prosperity of the Province.

Tourists want a place to stay where they can sleep and eat. They do not ask for a million-dollar hotel in the mountains. They prefer a log shack, something unique, something they can photograph and talk about after. They want roads to travel over. These are expensive to build in this Province, but they would repay the

Province a hundred-fold for the outlay and in very few years.

Mr. A. Lineham is a man whose ideas are, as a rule, very sound, and so far one feels that if this idea of his is acted upon and developed systematically during the next five years or ten years, the Province of B. C. will again be standing on a prosperous and very firm foundation.

When British Columbia can employ its own population in its own industries, have a home market for its own products, convert its own natural resources into the finished products with its own labor in its own factories. This Province will be able to find employment for its own young manhood and womanhood and they will not have to seek other lands to make their way through life. Keep our own people at home should be the first objective of the campaign for increasing our population.

DOMINION Tires

The Luxury of Motoring

is epitomized in "DOMINION ROYAL CORD" Tires. Easy riding becomes a happy reality when your car is equipped with these master achievements in tire building.

Bumps and jolts that make ordinary roads so uncomfortable are absorbed by these wonderful tires.

Why? Because of two "Dominion Royal Cord" features.

First—the marvellous "Royal Cord" construction, which consists of thousands upon thousands of slender, pliant cords—layer upon layer—yet each cord independent of all others—making a tire-structure so yielding and resilient as to take up the shock of ordinary road obstructions.

Second—these tires require less air-pressure than fabric tires. The lower air-pressure, flexibility and enormous strength of "DOMINION ROYAL CORDS" assure freedom from punctures, blow outs and the usual tire troubles.

These same features, which combine safety, comfort and luxury in motoring, also assure such greater mileage that "DOMINION ROYAL CORDS" are easily the most economical tires that can be put on any car, particularly the larger, heavier cars.

But the Dominion Rubber System does not stop with these master achievements in tire building. Dominion Tires are made for every car owner and in different treads for different conditions of work and roads—each tread the best that Canada's premier rubber organization can produce.

No matter what size or make of car you drive, you will find the right tires for service and mileage in Dominion Tires.

The Best Dealers throughout Canada carry Dominion Tires, Dominion Inner Tubes and Dominion Tire Accessories.

DON'T DREAD WASH DAY

Make Blue Monday a Joy Day by Using a

Time-Saver Electric Washer And Wringer
MAKE WASH DAY A PLAY DAY

Simply put the clothes into the machine, turn on the switch, and you can go about your other household duties, while the time-saver does your washing. In twenty minutes, without rubbing, without even the slightest wear and tear, your clothes are beautifully washed. Then it wrings them into the rinse water and out of the rinse water and out of the bluing water into your basket and you have a snow white line when the clock strikes nine.

A competent demonstrator goes with the machine and stays while the first washing is being done.

WHAT'S IN A NAME?

Facts About Your Name; Its History, Its Meaning, Whence It Was Derived, Its Significance, Your Lucky Day and Lucky Jewels.

By Mildred Marshall.
(Copyright, 1921, by The Wheeler Syndicate, Inc.)

MELINDA.

Though not generally listed in English nomenclature, and regarded rather as a product of the South in this country, Melinda has in reality an interesting history dating back to Spanish ballad lore. In that remote era she was undoubtedly Melisenda, and first appeared as the name of the wife of Don Quixote, who, being taken captive by the ferocious Moor, was the puppet shows in which Don Quixote took an unfortunate and lively interest.

Another Melisenda was the Princess Melisenda who carried the uneasy crown of Jerusalem to the House of Anjou. It was a most natural step to eliminate the over-abundance of syllables and contract the name to our present-day euphonious Melinda. For some inexplicable reason, it caught the fancy of the South, and its popularity there is still unquestioned.

The opal is Melinda's talismanic stone. It is the most mysterious and fascinating of all gems and is believed to bestow upon its wearer the charm which comes from your own charm and ever-changing moods. It will prove for Melinda a talisman against sorrow. Monday is her lucky day and 1 her lucky number.

"He's perfectly quiet," remarked the man to the two girls who were hiring a pony and trap. "Only you must take care to keep the rein off his tail."

"We won't forget," they said. When they returned he asked them how they had got on.

"Splendidly!" they exclaimed. "We had one sharp shower, but we took it in turn to hold the umbrella over the horse's tail, so there was no real danger."

Social Personal

A very pretty wedding took place at the home of the bride's parents, Mr. and Mrs. J. P. Dill, 1019 Richmond Avenue, on Wednesday afternoon, when their eldest daughter, Hattie May, was united in marriage to Percy David Duto, of the Post Office Department, Victoria, the ceremony being performed under a beautiful arch of ivy and pink roses, by Rev. W. L. Macrae. The bride looked charming in a gown of orange blossoms. She carried a lovely bouquet of bridal roses with white satin streamers entwined with asparagus fern, and was attended by her sister Nellie, who was daintily attired in pink crepe de chine, with hat en suite and carried a bouquet of pink sweet peas. The groom was attended by Mr. Charles Coates. The bride entered the room on the arm of her father to the strains of the Bridal March from "Lohengrin," played by Miss Katharine Simpson, and during the signing of the register Miss Beth Simpson sang very sweetly. "Still at the Night." The happy couple left the afternoon boat and after a brief honeymoon will reside in Victoria.

N. Buckley, of Moose Jaw, Sask., S. R. Edgar, H. Bullock, and Mr. and Mrs. J. H. Booth, of Calgary, Mr. D. Edgar, and Miss Edgar, of Stettin, Alberta, Miss K. E. Winterbotham, of Regina, Mr. and Mrs. Neil McLeod, and Miss M. McLeod, of Winnipeg, Miss E. Grant, of Cornwall, Ont., R. McTavish, of Calgary, J. A. Sturrock, and family, and Mr. and Mrs. J. F. McMullen, of Edmonton, Miss H. L. Lyon, and Miss K. Johnson, of Galburg, Ill., Mrs. M. Marten, and C. L. Brown, of Seattle, Mr. and Mrs. C. Morris, of Spokane, Mr. and Mrs. J. C. Henkle, Mr. and Mrs. E. B. Hyatt, C. Henkle, Mr. and Mrs. B. Bainbridge, of Portland, Oregon, Mr. and Mrs. W. J. Knapp, of Vancouver, Wash., Mrs. A. F. Duffy, and son of Tacoma, and Mrs. Frank Houston, of Yakima, Wash., are registered at the Strathcona Hotel.

A quiet but pretty wedding took place in St. Mary's Church, Oak Bay, on Tuesday at 2 o'clock, when the Rev. Col. Andrews united in marriage Frank Fox, eldest son of Mr. and Mrs. Wm. Fox, 554 Dallas Road, and Miss Ethel Croston, 2665 Goldsmith Street. The bride who was given by her mother was Green of Nanaimo, while the groom was supported by Fred Atwell, of this city. After the wedding ceremony, a reception was held at the home of the bride's mother, where only immediate relations were present. The happy couple left later on the afternoon boat for Seattle where the honeymoon will be spent.

At the Bishop's Palace, View Street, an interesting wedding took place on Saturday evening when the Rev. Father Lerner officiated at the marriage of Miss Florence Fortin and John A. Mackintosh, both of Victoria. The bride was supported by Miss P. Van Sickle and the groom by Mr. C. B. McDowell. The bride looked very pretty in a traveling suit of blue taffeta with hat to match. The happy couple left for the mainland on the evening boat, where they will spend their honeymoon at Sperling, B. C. Mr. and Mrs. Mackintosh will take up their residence at the Normandy Apartments on their return to the city.

A hoarse voice interrupted from the seat behind. "Gentlemen," it said, "I don't know your pal John, but you're bein' had. There are no such horses runnin'."

Hundreds of Bonny Babies at "Gonzales"

Little Mary Rayner Adjudged Best in Show Arranged By Gonzales Chapter and V. O. N.

Child welfare in Victoria has received considerable stimulus through the enterprise of the Gonzales Chapter, I. O. D. E., which, in co-operation with the Victorian Order of Nurses, has been holding a baby clinic for three days, culminating in a baby show yesterday afternoon. Over three hundred children were entered for examination by leading physicians at the clinic and appeared again yesterday at the fete in the lovely gardens of "Gonzales," where the results of the competitions in the various classes were awaited with interest by eager mothers and a sprinkling of proud fathers.

Tucker and Mrs. Tucker, Dr. L. G. Neville and Mrs. Neville, Ernest A. Pooch, A. Leiser and Mrs. Leiser, of Seattle; Mrs. Samuel Chappell, of Hamilton, Ont.; K. C. Samuel and Jas. Samuel, of Toronto, are among yesterday's arrivals at the Dominion Hotel.

On Tuesday afternoon Mrs. F. H. Brydges and Mrs. Norman Rant were the joint hostesses at an "at home" at the Angela, Burdette Avenue. Their guests included Lady McBride, Mrs. Ross Sutherland, Mrs. Russell, Miss Pooley, Mrs. R. P. Rithet, Mrs. L. A. Genge, Mrs. Matson, Mrs. Maunsell, Mrs. Peters, Mrs. Ross, Mrs. Codville, Mrs. Holmes, Mrs. C. Margaret Anne Wilson and William Alexander Wilson were the winners of the prizes given by Mitchell & Duncan for the best twins.

Decorated Buggies.
Some beautifully decorated buggies were entered in the competition for the prizes donated by Mrs. A. F. Griffiths, Mrs. Gale, of Saanich, and Mrs. Allister Forbes, Mrs. Charles E. Wilson won the first prize with a perambulator, resembling a flower of roses, in which was seated little Gloria Wilson dressed as a pink carnation. Little Master Goward won the second prize with a go-cart daintily decorated with pink and white roses and blue delphiniums. A special prize was also presented to T. H. Jones for a prettily decorated buggy.

The gross proceeds of the affair were about \$312, and the regents and members of the Gonzales Chapter wish to express their sincere gratitude to the Victorian Order of Nurses and Mrs. Price, Holden, Thomas, Bryant, Fowler, Barrett, Bisset, R. L. Miller, Bailey, Keys, Moore and MacPherson for conducting the clinic, the various donors of prizes, the Girl Guides, Boy Scouts, The Times and Colonialist, the trustees of the Pemberton estate, Miss Kelly, Dr. Young, Messrs Hibben & C., Mrs. Spencer, Mrs. Bevan and all who contributed in any way to the success of the undertaking.

Many Attractions
After the formal proceedings, the crowd scattered to find diversion in the many beauty spots of the gardens while the kiddies enjoyed the delights of shooting at punch, which was in charge of Elsie Wilson, hoop-la, convened by Mrs. Aldous, the generous goose, fishing pond, or the pony and rickshaw rides in charge of the Boy Scouts.

The Lady With the Hundred Pockets, whose identity concealed that of Miss Pemberton, was a veritable Pied Piper, her capacious pockets with their suggestion of hidden treasure proving an irresistible attraction to the little folk. The poster of the Lady, painted and donated by Mrs.

EXIT BETTY

By Grace Livingston Hill
(Mrs. Lutz)

Author of "The Search" "Marcia Schuyler" "The Enchanted Barn," etc.

Jane Carson with her eyes wide open lay staring into the darkness and thinking it all over. She did not waste much time marvelling over the wonder that it had happened to her. That would do for afterward when there was nothing else to be done about it. Now there must be some plans made and she was the one to make them. It was quite plain that the wonderful and beautiful Elizabeth Stanhope, the plans for whose wedding had been blazoned in the papers for days beforehand, was not at present capable of making or carrying out anything effective. Jane was. She knew it. She was a born leader and promoter. She liked nothing better than to work out a difficult situation. But this was the most difficult proposition that she had ever come up against. When her father died and her mother was left with the little house and the three younger children to support in a small country village, and only plain sewing and now then a boarder to eke out a living for them all, she had sought and found, through a summer visitor who had taught her Sunday School class for a few weeks, a good position in this big Eastern city. She had made good and been promoted until her wages not only kept herself with strict economy, but justified her in looking forward to the time when she might send for her younger sister. Her deft fingers kept her meagre wardrobe in neatness—and a tolerable degree of fashion, so that she had been able to annex the "gentleman friend" and take a little outfit with him now and then at a moving picture theatre or a Sunday evening service. She had met and vanquished the devil on more than one battlefield in the course of her experience with different department heads, and in the ways of the world. But this situation was different. Here was a girl who had been brought up by hand, as she would have said with a sneer a few hours before, and she would have despised her for it. She raised up on one elbow and leaned over once more to watch the delicate profile of this gentle maiden, in the dim fitful light of the city night that came through the one little window. There had been something appealing in the beauty and frankness of the bride, something that had found herself in Jane Carson did not know whether she was doing right or not in helping this stranger bride. It made her catch her breath to think how she might be bringing all the power of the law and of money upon her reckless young bride, who she meant to do it just the same. Elizabeth Stanhope! What a beautiful name! It fitted right in with all the romance Jane had ever dreamed. If she only knew this would make a thriller this would make!

Then she lay down and fell to planning.

CHAPTER V.

The morning dawned, and still no word from the missing bride. But the brief guarded sentences which Herbert Hutton had telephoned to the newspapers had been somehow widened and their plain and ghastly story had leaked out, which some poor, hard-pressed reporter had gleaned from the gossip in the church and hurried off to put into type. The morning paper, when it came to be read, found the story had been denied. Hot foot the story had run, and great headlines proclaimed the escape of Betty even while the family were carefully paying the way for the report of a protracted illness and absence, if need be, till they could find trace of her. The sun rose brightly and made weird gleaming of the silver wire on which the dying roses hung. The air was heavy with their breath, and the rooms in the early garish light looked out of place as if some fairy wand had failed to break the illusion of the night. The house and left a piece of Magician behind. The parlor maid went about uncertainly, scarcely knowing what to do and what to leave undone, and the milk cars, newsboys, and early laborers began to make a clatter of every day on the streets. The morning paper, flung across the steps with Betty's picture, where Betty's reluctant face had gone a few hours before, seemed to mock at life, and upstairs the man that Betty thought she went out to marry, lay in a heavy stupor of sleep. Betty, to be resting beneath the coarse sheet of the kindly working girl, sleeping the sleep of exhaustion and youth in safety, two miles from the rose-bowered room!

Long before day had really started in the great city Jane Carson was up and at work. She dressed swiftly and silently, then went to her little trunk and from it selected a simple wardrobe of coarse clean garments. One needed mending and two buttons were off. She sat by the window and strained her eyes in the dawn to make the necessary repairs. She hesitated long over the paste-board suit-box that she drew from under the bed. It contained a new

dark blue serge dress for which she had saved a long time and in which she had intended to appear at church next Sabbath. She was divided between her desire to robe the exquisite little guest in its pristine folds and her longing to wear it herself. There was a sense of justice also which entered into the matter. If that elegant wedding dress was to be hers, and all those wonderful silk underclothes which were likely she would never allow herself to wear, for they would be out of place on a poor working girl, it was not fair to repay their donor in old clothes. She decided to give the runaway bride her new blue serge. With just a regretful bit of a sigh she laid it out on the foot of the bed, and carefully spread out the tissue papers and folded the white satin garments away out of sight, finishing the bundle with a thick wrapping of old newspapers from a pile behind the door and tying it securely. She added a few pins to make the matter more sure, and got out a stub of a pencil and labeled it in large letters, "My Summer dresses" then shoved it far back under the bed. If any seeking detective came he would not be likely to bother with that, and he might search her trunk in vain for white satin slippers and wedding veils.

Breakfast was next, and she put on her cloak and hurried out for supplies for the larger than herself depleted night before to provide for her guest. With a tender glance toward the sleeper she slipped the key from the lock and placed it in the outside of the door, silently locking her guest within. Now there would be no danger of any one slipping her away while she was gone, and no danger that she might wake up and depart in her absence.

She stopped a newsboy on his way to the subway and bought a paper, to watch the latest news as she might be something in it about the girl who lay asleep in her little hall bedroom.

While she waited for her bundles she stole a glance at her paper, and there on the front page in big letters ran the heading:

STANHOPE WEDDING
HELD UP AT ALTAR BY
UNCONSCIOUS BRIDE
Relative Seeks Runaway Girl Who is
Thought to be Insane

She caught her breath and rolled the paper in a little wad, stuffing it carefully into her pocket. She no longer read any more of that in public. She hastened back to her room.

LOGANBERRIES

Methods of Evaporating, Right Temperatures and Proper Handling in Picking.

By J. C. Bell, O.A.C.

In view of the great interest being shown in Saanich in loganberry culture and the various methods of marketing the berries, the following information from well established fields, the following article on drying methods, contributed by J. C. Bell of the Oregon Agricultural Experiment Station, The Oregon Grower, will be of interest.

Commercially the loganberry is restricted to the Pacific Northwest, reaching its highest development in certain sections of the Willamette Valley. It is therefore the part of wisdom to make use of this natural advantage by developing the various loganberry products to their highest state of perfection.

Evaporating Conditions

That a high grade evaporated loganberry may be obtained certain conditions must be met.

The berries, for evaporating purposes are fully ripe, yet firm. Mature berries are too tart and there is greater loss in weight in evaporating. It is well to bear in mind that the berries are being changed to sugars and that these sugars are among the best qualities to be retained in the final product. That these qualities may be obtained it is necessary that the berries be picked off once those that are not uniformly ripe. For if over-ripe, prime and under-ripe berries are being dried on the same tray the final product will lack uniformity. The frequency of picking will depend on weather conditions, soil moisture, type of soil and cultural methods. As most picking is done by piece work there is ever present an incentive on the part of the pickers to hasten their work and become careless. By having too many berries in the hand they become crushed and melt down in the warm hand. Leaves and stems are also permitted to become mixed with the berries. To avoid such carelessness a rigid system of inspection must be obtained discharging those pickers who disregard instructions after due warning.

Picking should be done during the cool of the day as berries picked in the morning dry heavier, drip less and retain their shape better than those picked during the heat of the day. The drip caramelizes on the trays, giving the berries a mussy and disagreeable appearance.

Right Handling Necessary

Loganberries for evaporating should be picked only in hallocks as it is necessary that they retain their shape. The berries should be handled as is the usual practice to use the hallocks over again, care must be exercised to keep them clean and dry. Removed and all the trays are have become soaked with juice as they soon become moldy. The filled boxes should not be placed one on top of the other. The trays should be placed in a cool place. If the hallocks are piled several tiers deep a lath should be placed on top to allow air circulation.

It is the practice of some growers to use push carts to move the berries from the pickers to the end of the tray. The berries are frequently transported from the field to the evaporator should be provided with easy riding springs so that the berries will not be jolting. It is well to place a canvas over the load as a protection against dust, insects and the heat of the sun. The evaporators are frequently used for evaporating loganberries.

AVIATION NOTES

Following the decision of the Air Board to open up a sub-station of the B. C. Air Station at Jericho Beach, at Kamloops for the Summer months, it is announced that Pilot Navigator W. H. Brown, M.C., with one mechanic will be stationed there for the Summer. Forest fire patrol and survey work for the Aerodrome Department will be among the operations of the machine, which will be a seaplane, operating from Kamloops. W. H. Brown, M.C., is a former Victoria boy and well known in aeronautical circles in this city. He is identified with flying on the coast since his return from the Royal Flying Corps service overseas. Major MacLaurin, superintendent of the Jericho Station, will take the machine up in person and will be accompanied by F. Lambert, of the Geodetic Department.

With the increased and terrific heat of the east, New Yorkers are now sleeping on roofs, and all out of doors spaces that can be used for the purpose. It is whispered that that city is to provide sleeping accommodation on several sleeping observation balloons for the use of those who cannot gain relief in any other fashion. The idea, it is stated, is eagerly anticipated.

Gabriel Poulain was declared the winner of the ten thousand franc prize for the first man propelled machine to leave the ground. Poulain's contrivance was an aerial bicycle that he peddled rotated the small propeller. The machine was fitted with cambered wing and true aerodynamic details of structure. After peddling furiously for several hundred feet Poulain developed enough speed to rise from the ground and fly 25 feet, winning the prize, which was for any distance over ten yards. Poulain's efforts in the man-propelled machine was compared by scientists to the first attempts of the motor propelled aircraft, and he was accorded an ovation.

A giant seaplane operating over the Detroit River recently crashed into the water. The circumstances point to the fact that the plane was diving at the boat in a mimic battle, the occupants of the boat being fishermen engaged at their trade. When the crash came the seaplane struck the boat fair and cut it to pieces, the two men being lost. The occupants of the plane apparently were rescued.

Press dispatches from Holland credit one named Hansohk with inventing and flying a machine in a plane that may rise and land in a vertical plane and fly "500 kilometres an hour." This would mean a forward speed of some 312 miles an hour, or about 4.73 miles a minute. The machine is credited with being able to turn without banking in ten yards of space. The report has not been confirmed, if it would mean the revolution of all preconceived theories of

ENFORCEMENT OF VOLSTEAD ACT IN STATES PROTESTED

Operators of Ships Carrying Liquor in International Trade, Aroused

Washington, July 14. — Protests against enforcement by customs officials of a section of the Volstead prohibition enforcement act which subjects to seizure foreign vessels coming within the three-mile limit with liquor aboard, are reaching the State Department. It has been learned from representatives of international steamship lines. Inquiries also have come from various embassies and legations, said to indicate that foreign governments were becoming concerned at threatened interference with their shipping.

It has been pointed out that a British ship, bound from Halifax to Jamaica, could not put into Hampton Roads or any American port for fuel or supplies without risk of seizure if she carried spirits in her cargo, under the construction which has been given to the law by the recent decision of Attorney-General Daugherty, affirming an opinion of his predecessor.

Furthermore, it is anticipated by the shipping interests that another opinion withdrawing the present privilege of sealing up the bar supplies on the ocean liners within the three-mile limit is to be expected, in which case vessels also would be subject to seizure if they carried liquors for the use of passengers.

The Aero-Marine Airways line of New York is operating the nearest approach to an aerial tallyho over the Atlantic, as it were. Parties of from ten to twenty are taken on an aerial tour of New York, viewing the skyscrapers from a close and intimate point of view, as it were. The service is popular, and the features of the departure, it is stated, is the keenness of the children to fly. Parents take the matter with interest, but children want to scramble all over the aerial tallyho, which, of course, is not permitted. Those adults have sufficient sense to take the children, one and all, "take to flying in a manner that is no less than surprising."

The Americans are watching with interest for the arrival of the former R-35, built by the Beumont Aviation Works in England to the order of the British Admiralty. The huge dirigible, which is even longer than the R-34, which crossed and recrossed the Atlantic, has been called christened already—now being called the Z-2 or some such appellation. A party of American aeronauts and mechanics are practicing with the machine in England now and will shortly attempt the flight out to the new world. It is interesting to note that the American Government has already acquired the huge dirigible that ferried across the Atlantic, and the British Admiralty had expressed a desire to sell. No new dirigibles are being laid down in existence because of those already in existence. Some civil aeronautical firms have bid on some of the small craft, but developments are not yet ascertained to what use these will be put, though a cross-Atlantic passenger service is believed to be in the wind.

Norman A. Goddard, pilot of the Aerial Transportation Company, was successful in securing his civil aviation wings and certificates for the Curtis machine in tests this week. Goddard flew his examiner back to Vancouver as part of the cross-country test, it is understood. In the Vancouver test the machine had the misfortune to be damaged a float, but the damage was slight. The call letters G-CACO have been allotted to the machine, which is owned by a group of Victoria men.

R. M. S. MAKURA

The operator at the Vancouver Merchants' Exchange yesterday heard the Canadian-Australasian liner Makura talking 3,720 miles south of Honolulu, bound from Auckland to Suva. The Makura is due at Suva on Saturday, bound from Sydney, N. S. W., to Victoria and Vancouver.

MEN OF MONTEAGLE IS DANGEROUS TO BE REWARDED TO NAVIGATION

Those Figuring in Hsintien Rescue Last April to Get Recognition

Officers and members of the crew of the C. P. O. S. Liner Montea are to be rewarded for the heroic part they took in the rescue of the Hsintien, a French steamer, which foundered off the Lamrocks, China Sea, on April 5 last. According to officials of the Canadian Pacific Ocean Services, Ltd., French consul, M. Wilen, of Shanghai, has recommended to the French Government that decorations be conferred upon the officers and Chinese members of the Montea's complement who displayed such heroism in effecting the rescue of the Hsintien's crew under extreme difficulties.

The Hsintien was bound from Shanghai to Swatow on April 5 when she commenced to take water and sink. The captain drove the ship to the shore and hoisted distress signals, which brought to the scene the steamship Montea, then bound from Hongkong to this port. At tremendous risk a volunteer crew from the Montea took off the people from the Hsintien, and shortly after the rescue had been effected the Hsintien broke in two and sank.

The Montea is now at Vancouver, having completed her second trans-Pacific voyage since the Hsintien incident.

Point Grey wireless station reported to the Gonzales radio station this morning that a large ship, approximately 40 by 35 feet, equipped with two winches and tackle, and drawing from seven to eight feet of water, was drifting ten miles off the Fraser River Sandheads. The obstruction is a danger to navigation and shipmasters are notified to take precautions.

Spring salmon in Skeena area Excellent in Quality, Say Fishery Inspectors at Prince Rupert

Prince Rupert, July 14.—Chief Fisheries Inspector Motherwell and Inspector Williams are here from a tour of the Skeena district. They report spring salmon in the Skeena to be excellent in quality and quite equal to last year. The fish average about 25 pounds and there is a good average run. The run of sockeye, however, has not been so good, but is improving. The catch runs about 30 to the boat, but the season's record to date for one boat is 160. The same conditions prevail in the Naas River.

DUTCH SHIP TOOK LIQUOR TO SOUND

"Wet Goods" Shipment Consigned to This Port Was Over-carried

Entering the Straits last night, the Holland-American freighter Eemdkijk, Capt. J. Dekker, passed up to Puget Sound, and shipping men here are at a loss to understand the reason for the diversion.

The Eemdkijk has a quantity of liquor aboard for delivery here, and under a certain section of the Volstead Prohibition Act the ship is liable to seizure by the American authorities if she touches at a United States port with liquor aboard. At least that is the interpretation placed upon the Act by some people—and totally indifferent as to the consequences, Capt. Dekker passed up Victoria en route from Astoria to Puget Sound.

The local agents, Findlay, Durham & Brodie, looked for the arrival of the Eemdkijk here last Sunday, but it was discovered that she had been held up at Portland and Astoria, and the date was put back to July 15. The arrival of the ship is now very indefinite, and Longshoremen who had looked upon the Eemdkijk as a sort of windfall have been disappointed, and the shipping agents are mystified.

It is highly improbable that the American authorities will allow the liquor shipment to be trans-shipped either at Seattle or Tacoma, and in the Eemdkijk may call here on her way to Vancouver.

AMERICAN WARSHIPS MAY VISIT VICTORIA

Fleet Under Admiral Eberle Arrives on Puget Sound From South

The main units of the United States Pacific fleet under Admiral Eberle arrived at Seattle to-day and rumors are afloat that during the stay of the fleet on Puget Sound some of the warships may pay a flying visit to Victoria.

The American fleet includes the battleships New Mexico, Mississippi, Tennessee, Idaho and Texas, and accompanying smaller warcraft. The fleet is expected to remain in the Puget Sound area for a week, after the termination of the festivities, will shift to the Bremerton Navy Yard.

As far as is known, no formal invitation has been extended to Admiral Eberle to visit Canadian waters during his stay on the North Coast, but the impression prevails that a little persuasion from some official source would serve as an inducement for some of the American war vessels to cross the Straits.

Visit Two Years Ago. The last time some of the larger units of the United States navy visited Victoria, was following the arrival of the American fleet on the Pacific coast from the Atlantic, when Admiral Hugh Rodman anchored off the breakwater in the battleship new Mexico. That was on the occasion of the visit of the Prince of Wales to this coast in September, 1919.

NO WORD OF ALABAMA

Is Next Ship of O.S.K. Fleet to Arrive From Orient

The Alabama Maru will be the next O. S. K. liner to reach this port from the Orient, but up to the present no word of her departure from Yokohama has been received by the local agents. July 19 is the scheduled date of the Alabama's arrival, but as she has not been reported putting to sea from Yokohama it is unlikely that the ship will make this port as scheduled. The liner Africa Maru is leaving port this evening for the Orient with a full cargo. Twenty Japanese steerage passengers will go aboard here. The Hawaii Maru is posted to sail July 23.

CITY HALL WILL CLOSE SATURDAY FOR BIG PICNIC

The City Hall will be closed all day Saturday. Mayor Porter announced this morning. The idea is to give the civic employees plenty of time to get out to their picnic at Goldstream. The Mayor stated, "They say it would be too much of a rush to quit work and jump on the train a moment afterwards, so we have decided to close the Hall up altogether."

NEWS IN BRIEF

Bank Clearings—Clearings for the week ending to-day were \$2,488,449 as compared with \$4,899,846 in the corresponding week of 1920.

Army and Navy Veterans—The general monthly meeting of the Army and Navy Veterans in Canada, Victoria unit, will be held to-night at 8 p. m., in the assembly room at the Hamley Building, 602 Broughton and Government Streets.

To Inspect Provincial Archives—On Saturday morning the teachers attending the Summer school will pay a visit to the Provincial Library and inspect the famous collection of maps, charts, books and other priceless documents relating to British Columbia included in the Provincial Archives.

Saw Large Bear—A MacCorkindale, representative of the Imperial Oil Company, while returning over the Malahat yesterday saw a large bear on the road near the Hamsterley picnic at Goldstream. The bear appeared to be quite undisturbed by the meeting, and shambled off into the woods contentedly taking his time about disappearing.

Many Rotarians Visit City—A large number of Rotarians from various parts of Canada and the United States are visiting Victoria at present and attended the Victoria Rotary Club's luncheon in the Empress Hotel to-day. W. A. Peace, formerly president of the Toronto Rotary Club and a prominent figure in international Rotary, is among the visitors.

Theft From Policeman—Constable Suckling was on his way home from the Oak Bay Police Station the other night when he had occasion to place on the ground a thermos flask at the intersection of Granite Street and Hampshire Road. He went home, forgetting his flask, and on discovering his loss returned later. By that time the flask was missing. It has not yet been located.

Death on Weeds—Noxious weeds on empty lots and by the side of roads have become so prolific as to become a real annoyance says Deputy Chief Palmer and the attention of the Department has been drawn to the matter by many citizens. Mr. Palmer stated that citizens make war on weeds in their immediate neighborhood. A general campaign against the weeds, he suggests, would be advisable.

Less Visitors From the Orient—A good season for picnics at Deep Bay but less people than usual staying at the hotel during the Summer months is the report of Mrs. Cresswell, of Deep Cove Chalet. During the war we had a lot of visitors from Shanghai each Summer, but now I think many of them are visiting England and the rest of Europe, says Mrs. Cresswell.

St. Paul's Lutheran Picnic—A picnic of unusual interest was enjoyed by the members, parents and friends of St. Paul's Lutheran Sunday School yesterday at the Willows Beach. A great variety of sports were held in the afternoon at which twenty-six prizes were awarded to contestants. After a sumptuous supper, a baseball game wound up the frolics of the day.

Lecture at High School—To-morrow evening's lecture to the Teachers' Extension Class at the High School auditorium will be by Dr. Coleman, Dean of the Faculty of Arts and Science at the University of British Columbia at Vancouver. Dean Coleman's subject will be "Poetry and Childhood" and the general public of Victoria will be welcomed to the address, which will commence at 8.30 o'clock.

Order Dog Destroyed—Mrs. E. Pendray, charged with being in possession of a dog that was vicious, was discharged to-day upon giving an undertaking that the dog would be handed to the poundkeeper for destruction. Alfred Griffin, who stated he had been bitten in the leg by the dog, gave evidence of the incident, in which the teeth of the dog had penetrated his clothes sufficiently to inflict a surface abrasion. Dr. Bryant gave evidence as to the nature of the slight damage involved. Mrs. Pendray stated she had sent the doctor to attend the man, but that he had wanted money, and had bothered her many times over the telephone for money. Magistrate Jay, stating that the case should not have been brought in the police court, made an order for the destruction of the dog.

BEER SELLING CHARGES REMANDED

Club Prosecution is Set for Wednesday

The charge against the Army and Navy Veterans' Association, Victoria Unit, of selling beer in contravention of the provisions of the Government Liquor Act, was called in the city police court again to-day, but eventually remanded until a further hearing set for Wednesday next.

Dr. Despard Twigg, counsel for the accused, stated that his clients were going ahead with the proceedings, and would like an adjournment and full particulars of the charge so that they could be met.
C. L. Harrison, City Prosecutor, stated that if it were going to be a matter for a writ of prohibition to take it out of the police court, it might as well be stated at once, and that he wished to go on at the first opportunity.
"I would like to know one way or the other," stated Mr. Harrison, "if the Act is no good, let us know it is no good."
Counsel finally obtained a remand until Wednesday, when the hearing in the police court is to be held. It was understood that Sir Charles Tupper, K. C., will be retained by the accused.

Lecture Cancelled—The lecture that was to have been given in Christ Church Cathedral this evening by Rev. N. B. Wilson has been cancelled.

MEDICINE HAT ELECTION EFFECT

Dr. MacRae, of Calgary, Speaks of Alberta Election

The Medicine Hat federal election has heartened the United Farmers of Alberta, and it looks as if they may have a sufficiently large following to form a government, or to introduce group government in Alberta, after the votes are counted in the forthcoming provincial poll.

That is the opinion of Dr. MacRae, principal of Western Canada College, Calgary, who is in Victoria on a periodical holiday in the Coast cities. Dr. MacRae pointed out to The Times this morning that not only was Premier Stewart the only member to secure election by acclamation, but that in the other 60 seats there were 48 United Farmer candidates, in fact they had candidates in all except four city ridings, Edmonton and Calgary each returning five members.

It is not improbable that the United Farmers of Alberta, who have not in existence as in Saskatchewan more or less a friendly arrangement with the Martin Government, may have a party of nearly 30 in the next house, and thereby with other parties leave the Stewart Government in a minority, because Dr. MacRae thinks the United Farmers are better organized in Alberta than in any other province of Canada. H. W. Wood, President of the United Farmers, is conducting an active campaign, Dr. MacRae said, and is well supported by some of his lieutenants, so that the Government will be faced with a serious campaign.

Dr. MacRae did not mention the fact to The Times, but it may be mentioned he was offered the nomination in Calgary.

Dealing with business and crop conditions in Alberta Dr. MacRae pointed out that the recent moisture has greatly improved conditions, and while the situation has been somewhat critical, a full crop is now expected in many parts of Alberta.

Victoria Entries Took Three of Main Events At Police Track Meet

Johnson, Vaio and Hay Saved the Day For Home Crowd at Successful Sports at Willows Yesterday.

The high jump, won by Johnson of Victoria, the provincial titleholder, who in spite of the fact that he had been unable to train for the event through an injury to his foot sustained a month ago, set a 5 ft. 4 in. mark; the broad jump, won by Brook Vaio of Victoria, and the 440 yards, carried off by Cecil Hay, a former star among the Victoria High School athletes, who has since done well at McGill, were the outstanding local successes at the police sports at the Willows. Outside of the performances of these three competitors, visitors made a good clean-up on the prizes. About 1,500 people were on hand. The weather conditions were excellent.

Motorcycle Events.

Motorcycle events seemed to be the most popular event of the afternoon, the three and five-mile races causing considerable excitement, and were accompanied with the thrills that always please. Harry Jones was first in both of these events, but not without good hot competition. George Rainey came in second in the three-mile race, and there is no doubt that first position in the five-mile would have rested between him and Harry Jones if a slight accident had not happened to Rainey. The two lads got away to a good start in the five-mile, and were outstriking the other contenders with good speed, when at the start of the second lap Rainey skidded at the bend and piled his machine on the bank, almost running through the fence. This left the race for first prize to Harry Jones, who showed such good speed that at the end of the last lap he had not one lap ahead of the last rider. A keen contest was given to Playfair by Hubbard, who came in third.

Flat Racing.

In the foot races the 440 yards aroused considerable interest when Cecil Hay led with a 12-foot start over "Tiny" Ryan, who came in second in fine style. Hay showed good form in this race, as also did Ryan. Hay is well known to Victoria people as a leader in all-school sports, and as a second best sprinter at the Canadian University.

Cowan Took Two.

Much enthusiasm was aroused in the 100-yard and the 220-yard race, when it was a matter of whether Lee Cowan, B. C. championship holder, would win in both events. Cecil Hay, but Cowan proved to be victorious in both events, although the margin between him and Hay was very small, and in the 100 yards he almost secured the lead at the end of the first lap. Cowan winning these two events this made the list of honors greater than ever for Vancouver. Cameron, of Vancouver, and who took the Olympic championship of Canada, took the shot-put contest home to his city with him, throwing the weight 40 feet 3 inches. R. C. Watson came a close second, being only one inch behind Cameron.

Bad For Khaki.

The tug-war between the Keen coast between the Terminal City and Victoria, was won by the Vancouver team. The Garrison had little show in this contest, the Vancouver and Victoria teams pulling them over the mark with little struggle. But in the final Chief Fry's men gave the opposing team a good struggle but lost to the visitors in the end. For the afternoon and evening the Vancouver team have been strangers to defeat not having lost once during this time. The Pacific Championship cup being held by them.

Province Gained Cup.

The news of a half-mile relay provided competition of good quality both from the Terminal City and local papers. In this event, the Daily Province secured first place winning the cup two years in succession they are entitled to retain the cup permanently. The Sun came in second closely followed by the Times of Victoria for third position thus securing a victory over the Colonist who dropped into cellar position. The 75-yard for news boys was also won by the Vancouver Province. Cathcart making it in 8 4-5 seconds.

Brook Vaio proved winner in the broad jump outjumping his opponents by securing a 19 foot 4 inch length falling on his elbow thus making the distance shorter than it would have been. High jumping also took a lead in popularity on the field some very good form being shown by the contestants. Johnson won the jump with a height of 5 foot 4 inches with N. Cathcart securing second prize for the Vancouver Province at a height of 5 feet 3 inches. In the mile and half-mile races Vernon Witworth took the prizes for first position. With a hundred yards to go in the mile race he was secured the lead and held it down the track to the line.

Dance Held.

The sports were brought to an end with a dance which was well attended. The 10th Scottish Band provided an excellent programme of music during the afternoon and were given an entry in the events which proved to be a laugh maker. A distance of a hundred yards had to be traversed while playing there were stunts. The results of afternoon sports are as follows:

Kiwanians Picnic In Beautiful Scenery at Deep Bay Yesterday

Full Programme of Sports Occupies Attention of Merry Throng; Details of Gathering Credit to Committee.

One of those outings stored up in the memory as an outstanding occasion and eagerly anticipated the following year when the Summer comes round again and dates for annual picnics are set, that was the kind of day the party of about 200 composed of Kiwanians, their wives and families enjoyed yesterday. Everything went off without a hitch. The weather was perfect. A bright sun shone from a cloudless sky, so no one entertained any fears of being caught unawares without raincoats or wraps.

Harry Stuart marshalled his forces of autos with quiet efficiency, and within a few minutes of the arrival of each group at the Dominion Hotel he had them provided with accommodation and on their twenty-five mile drive to Deep Cove.

Car owning Kiwanians hospitably provided room for the remainder of party, and the drive to the Bay made in good time over a road which is in good shape practically all the way was an enjoyable start to a good day. There was something doing every minute on arrival at the Chalet grounds. Walter Maguire, who had charge of the athletic programme, had drawn up a comprehensive programme, which gave an opportunity for everybody and the enthusiasts saw that everybody turned out for their share. The youngsters of the party had nothing on the Kiwanians themselves for enthusiasm, and a few visiting Kiwanians who were among the party soon found themselves right at home as a result of the real Kiwanian spirit which helped in the success of the outing.

An Arbitrary Ump
A diamond was marked out, the largest ball ever used in the history of the game secured, a battery of canned apples and oranges for the umpire and then V. M. Ivel's Nine designated the Indescribables among other names and Dr. Stewart's Stalwarts were ready for the great baseball contest. In spite of the fact that Darrell Spence on the mound for the Indescribables had the best of the umpire to help him understand the Stalwarts made great effort in the last frame when they pounded him all over the lot made the score 10 to 9 in their favor. A few flies promptly handed out by the umpire who broke no criticism in spite of the great temptations offered as the result of some of the decisions toned down the players who were inclined to dispute decisions.

The ball teams were as follows:
Indescribables—D. Spence, D'Arcy, Hewlett, Knappenberger, Shipway, Dignon, Kirk, Braidwood and Ivel.
Stalwarts—Harry Stuart, Walter Maguire, Harold Lewis, Sommer, Carter, Dr. Stewart, Walter Walker, Walter Revercomb and Tom Morry.
It was the original intention to have the sports over before the tables were loaded with the pooled combination of tempting supplies taken by the ladies of the party, but so many discussions arose on the athletic ability of different members who claimed their defeat was due to interference or some other cause that to keep the peace a number of special races and competitions had to be staged. Two happy throwers in the baseball throwing competition, for instance, were great rivals irrespective of the performances of the other competitors.

Kiwanian Heaton Busy.
Kiwanian Cecil Heaton was rushed to the piano after the sports and with his well known skill supplied dance music the party leaving for home as it suited their convenience.

Kiwanian Walter McGuire wishes to extend thanks to the members who made such generous donations to the prize fund. The ladies who capably superintended the supper arrangements were: Mrs. Umbach, Mrs. R. J. Robertson, Mrs. Dr. Griffiths and Mrs. Dr. Burgess.
Mrs. Graham led her nine to success in a ladies' baseball game against a team captained by Mrs. Darrell Spence.

Where the Kiwanians and Friends Staged Their Ideal Outing

THE CHALET AT DEEP COVE.

The venue of the Victoria Kiwanian Club picnic yesterday. Swimming in the clear waters of the bay, dancing on the piazza, a baseball game and sports on the picnic grounds were some of the enjoyable features of outing.

ALCOCK MAKES HIT AS WATER COMEDIAN

Ralph Alcock by his stunts in the water and from the diving board, which created a real sensation with the hockey fans in Victoria and Vancouver last night. Alcock, in this Summer impromptu to the young idea the elementary rules of swimming at the Victoria Country Club at the Gorge and has a steady procession of youngsters each day trying to imitate him. But on gala days Ralph is called upon to supply the comedy. Some of it is in water where he is as much at home as he is on the ice but the most thrilling and at the same time amusing part of his comedy work is from the diving board. He made a great hit at the last gala with his "Keystone" comedy work which included a lot of clever stuff requiring a great deal of acrobatic skill.

EVENTS FOR WEEKLY GALA AT THE GORGE

The programme of water sports to be staged by the V. I. A. A. at the B. C. Electric Park, Saturday afternoon, commencing at 3 p. m. is as follows: Single canoes, men; balloon race, swimming; crab canoe race; canoe tug-of-war, mixed team (four men); canoe fours, mixed; canoe tilting; centipede race, four to a team; paddling with hands.

PROVINCIAL TRACK MEET

Vancouver, July 14.—The annual track and field meet for the B. C. provincial championships will be staged at Hastings Park, beginning August 27 next, if the date is acceptable to the Vancouver Parks Board.

FAMOUS BETHLEHEM TEAM EASY FOR THE SCOTSMEN

Bethlehem, Pa., July 14.—The Scottish professional soccer team defeated the Bethlehem Steel team yesterday, 3 to 1.
Bethlehem held the Scottish visitors even in the first half with one goal each, but in the second half the defence of the home club collapsed before the superior attack of the visitors.

HAS TWENTY HOME DRIVES

Kansas City, Mo., July 14.—"Bunny" Brien, first baseman for the Kansas City American Association team, lined out three home runs in today's game with Columbus making his total for the season so far 20.

FOUR-ROUND DRAW

Los Angeles, July 14.—Travis Davis, of Portland, and Sammy Peisinger, of San Francisco, fought four rounds to a draw in the main event at Vernon last night.
George Marks, of New York, out-boxed Ad Rubidoux in each of the four rounds of a semi-final match.

George Allan Heads The Knights to Victory

In a Hard Fought Game at Stadium Last Night Conservatives Beaten by 6-5; Nobel Pitches Well For Winners.

	P.	W.	L.	Pct.
Elks	7	5	2	.714
Yarrows	7	4	3	.571
Knights	8	3	5	.375
Conservatives	8	3	5	.375

Playing their first game under their new leader, George Allan, the Knights of Columbus defeated the Conservative Club 6 to 5 in a hard fought game at the Stadium last night. With all due credit to the Knights there is no question but that they had the advantage of the breaks throughout the game, while the Politicians bumped into hard luck time after time, and it was really the breaks that decided the game.

Old man Jinx showed his presence in the Conservatives' camp as early as the second inning, when Brynjolfson of the Knights drove out a single to right which rolled through Taddie's legs, Brynjolfson tying up at third and scoring a few minutes later when Potts let one of Saunders twisters get by him. This is the first pass ball Alex has had for many a long time. In the fifth inning the Knights showed, three more runs over on singles by Copas, Nobel and Turpel, aided by a wild pitch by Saunders, and came back with another in the sixth when hard luck again assailed the Conservatives. Brynjolfson was safe on Newman's fumble. Oatman grounded to Moore, forcing Brynjolfson at second. Copas singled to left and the ball took a bad hop, getting away from Cotte and rolling to the fence, scoring Oatman. In the seventh the Knights came through with a real earned run when Dunn beat out a hit to short and scored on Turpel's double to right. This ended their scoring as they went down at short order during the eighth and ninth.

The Conservatives were unable to break into the scoring column until the sixth inning when singles by Green, Potts and Cotte netted them two runs. They came back with a vengeance in the eighth and shoved three more runs over making the score 6 to 5 in the Knights' favor. With the bases loaded, Moore jumped into the line by driving out a single over second, scoring Newman and Green. Potts scored a few minutes later on Cotte's fly to centre. One run to the lead, the Conservatives made a great effort to win out in the ninth. Saunders fouled out to Richards, McMillon singled through the pitcher's box and stole second. Newman fanned and was thrown out at first, McMillon going to third. With three hits to the evening, to his credit, "Jinx" Green strode to the plate determined to bust up the old ball game. Nobel lobbed the ball over an effort to walk him but Green was looking for hit and grounded to Dunn, who threw him out at first.

"On the strength of their victory the Knights crawled up even with the Conservatives and are now in a position to grab third place should they be successful when they meet the Elks on Saturday. Copas, playing his first game with the Knights, handled himself in good style and has added considerable strength to the infield.

THORPE POLES OUT THREE HOME RUNS

Total of 148 Perfect Plays in Boston-Chicago Games

New York, July 14.—A total of 148 perfect plays were made in the double-header between the Boston and Chicago Nationals at Boston yesterday. The Braves won both contests. In the second contest the Cubs outbatted the Braves and made four extra base hits to one for the Boston Nationals.

Milwaukee, Wis., July 14.—Jhn Thorpe, Toledo outfielder, yesterday made three home runs in the game between Toledo and Milwaukee, American Association.

BEAVERS TAKE IT OUT ON VICTORIA

Ten to Three Was How the Score Read Yesterday

Vancouver, July 14.—The Beavers celebrated their homecoming yesterday by walloping Victoria in the first game of the series, 10-3, thereby establishing a new record. In the second half of the Pacific International League race. It was Vancouver's fifth victory since the curtain went up on the second half.

Wallace the Victim
Max Rachac was the victim in yesterday's fracas and Bobby Wallace the Victim. The Beavers raked Bobby's offerings fore and aft, starting with the first stanza and in the fifth frame they boomed his out in all directions, collecting five counts. This ended the run-getting for the afternoon so far as the leaders were concerned. Rachac eased up in the ninth when the Bees cluttered up the runways on hits, a pass and Slomons' miff of Rego's fly to the left garden.

Three runners scored during this hectic session and then Rachac appeared and there was no further scoring.
The Beavers' attacking forces played havoc with the Bees in the early stages. Bozile got a couple of doubles, Moss Solomon closed a triple and homer, and Bill Purteil, Anfinson and Wilson poled out doubles.
Smart Fielding.
After the fifth Wallace held the leaders useless and with a bingle. Several smart fielding stunts featured the game, one of the fastest of the season. Wilson made a couple of nice running catches, Paton picked up some hard drives down the short field way, while Jimmy Church had a big day in the field. Rachac had the Bees' number at all stages, the exception of the ninth they had nary a chance to manufacture markers.

The teams are playing two games to-day.

DOUBLE FEATURE
NOW AT ROYAL
First Production of Film Is Well Received

The Royal Victoria Theatre will present again to-day the fine two feature programme which received such favorable comment on its first presentation yesterday. The five reel Mack Sennett comedy, "Love, Honor and Behave" is a picture that develops much original humor, and with Mildred Harris Chaplin in "The Inferior Sex" makes a programme that will be hard to duplicate.

"Old Mammy" is one of the quaint characters in "The Inferior Sex," a picture starring Mildred Harris Chaplin and released by First National, which will be shown at the Royal Victoria Theatre again to-day.

The old negress had been off married, and as she expressed it, "Four ob dem having promised to lub and obey me."

As the cook in the home of the young married couple, she gives some wholesome advice to the wife, who spends all her time trying to please an indifferent husband.

"Keep him guessin," said Old Mammy. "De onliest way to get along with men is to keep 'em happy. An de onliest way to make 'em happy is to make 'em unhappy. Keep 'em guessin and day will be onhappy and den dey'll lub yo and be happy."

To make the programme complete Miss Eva Hart renders in her usual finished style a number of new songs that go to make up a fine and finished performance.

VARIETY

An important cast of principals will be seen in support of Priscilla Dean in her newest production—feature, "The Virgin of Stamboul," now showing at the Variety Theatre. From the Oakman, Wallace Beery, E. A. Warren, Edward Burns, Eugene Forde, Ethel Rich, Yvette Mitchell and others. Tod Browning directed the production.

As an extra attraction Mr. Neil Black (Scotch comedian), is appearing in person at the evening performance singing his favorite Scottish songs.

DOMINION

A lot of devils played jazz music in a cathedral beneath which flames stizzled and crackled one day during the filming of Thomas Meighan's newest Paramount picture, "White and Unmarried," which is at the Dominion Theatre.

The scene was a big cafe in Paris. The waiters were all clad in Mephisto garb and the band as stated were all a lot of regular devils. It was a cold morning—the flames under the big cauldron were not real flames and so a lot of the devils who were not working were overcoats. It is in this cafe that Billy Kane, played by Tom Meighan, meets Andrea, the little chanteuse, interpreted by Jacqueline Logan. The support is excellent.

COHAN COMEDY
GIVES MISS BERKELEY
SPLENDID CHANCE

Dashing Adventuress Dominate Princess Play

Probably because the Kiwanis picnic and the police sports had sated the desire for amusement of many Victorians, last night's opening performance of "Forty-five Minutes from Broadway," by the Mildred Page Players at the Princess Theatre, was marked by many vacant seats, a condition not noted for months past.

The famous comedy by George M. Cohan was presented effectively, Miss Lisle as Mrs. Purdy, "the best double for Niagara Falls ever known," being very strong, while Lee Jaxon as "Kid" Burns, the New York East-side, "slangy" secretary to the hero, was full of energy, in spite of suffering from a bad cold.

Miss Berkeley shows brilliantly as the vampish and handsome Mrs. Dean, always coming to the fore with "I will speak for my daughter," Miss Dooley, as Flora Dora Dean, with a strong engagement, clinch on the hero and his million, is chiefly a foil for her mother's brilliance.

James G. Coote takes the part of the heir just come into a fortune by grace of an infatigable will with good effect, his singing of "Friend of Mine" being the big hit of the musical numbers. Miss Page carries the character of May-Jane with her accustomed aplomb, though far from enjoying the best of health as a result of overwork, this being noticeable in the timbre of her voice, though not affecting the charmingly effective simplicity of action with which the lines are recited, her destruction of the million dollar will in her favor being the dramatic note of the final act. As the villain seller of wildcat stocks, Thomas Padden makes the most of his lines, his blackmailing interview with Mrs. Dean giving Miss Berkeley a splendid opportunity for dramatic moments of the "Carmen" type, strongest work of the whole entertainment, when she threatens to kill him rather than be exposed as an adventuress.

Arthur Elton as an ancient butler, hand in glove with the crook and reporter, policemen and an extremely youthful appearing chorus, completed the cast. Byron Alden not filling any role this week on account of the press of production duties.

CHIEF WHITE ELK
AND WIFE COMING
TO VARIETY THEATRE

At the Variety Theatre next week an all Indian play will feature "Chief White Elk." James F. Finch, advance representative for the show, reached the city last night, and to-day will complete arrangements for the showing of the film.

Chief White Elk will appear in person with the picture. The Chief, accompanied by his wife, Princess White Elk, present complete production.

CHIEF WHITE ELK

logue and epilogue as well as explain each vital point of the remarkable production in detail. The picture deals with the story of the North American Indians before the white man invaded their country; it was made under special permission of the Interior Department of the United States Government on the Crow and Cheyenne Indian Reservations in Montana and Wyoming. Every character in the cast is portrayed by a full-blooded Indian, and the costumes worn are most gorgeous. This is the first and only all-Indian picture ever made, and should attract capacity audiences.

"ALF'S BUTTON" AT PANTAGES.

There is keen pleasure over the announcement that the management of the Pantages Theatre were able to extend the engagement of the big British super-feature comedy, "Alf's Button," which will now be shown until Saturday night before starting its eastward trip. The picture will be shown at Nanaimo next Monday, and will then start its homeward journey. It is safe to say that it will be accorded as big an ovation when repeated in eastern cities as when it first appeared. It is the talk of the whole Dominion.

Jean Paige, whose fame has spread throughout the country through her splendid portrayal of Jessie Gordon, the heroine in the Vitaphone masterpiece, "Black Beauty," is now in the East awaiting the completion of the script of the picture version of "The Prodigal Judge," in which she will appear as Betty Malroy.

"The Prodigal Judge," by Vaughan Kester, enjoyed a huge success when it was published a few years ago, and will be presented by Vitaphone as a special production.

Jimmy Aubrey has completed his new Vitaphone comedy, "The Riot." Jimmy appears as an amateur golfer who finds a detective badge on the links and foolishly pins it on his coat. After that he has more than the usual trials and tribulations of a beginner at the ancient and honorable game.

An enterprising shop assistant was trying to persuade a farmer to buy a bicycle. The farmer was in town for the day, and had determined to see everything.

"I'd rather spend my money on a cow," said he, proudly.

"But think," said the assistant, "what a fool you'd look riding about on a cow."

"Not half a fool as I'd look trying to milk a bicycle," answered the farmer.

THE SANDMAN
STORY FOR
TO-NIGHT

THE PUMPKIN'S STORY

One night in a field there lay on the ground some pumpkins all yellow and ripe; but though some had been carried away, there were many that had not and these, as they saw the darkness creeping over the world, began to complain.

"I am tired of staying out here every night," said one. "Why were not we chosen to sleep in the barn or do something besides stay out here in the cold?"

"I wish I had been an ear of corn," said another; "the life of a pumpkin is so lowly we never get up in the world at all."

"Yes," sighed the others, "that is true, brother; life for us poor pumpkins is truly a lowly one."

There was one large pumpkin, however, that did not join in this complaining. It waited until all was quiet, and then it began to tell its story.

"It is plain to me," it said, "that you complaining ones did not spring from the right seed or you would know that the pumpkin is far from being a lowly thing, for one of its ancestors is right now far above the world."

"What do you mean?" exclaimed the pumpkin. "All pumpkins grow on the ground. How can it be that one grew so far above everything?"

"Listen and I will tell you," replied the wise pumpkin.

"Long, long ago in a field one night

there lay a big pumpkin just as we are here now on the ground. It was a very dark night, just like this; when all at once a sound of steps was heard coming along the road and then some one jumped over the stone wall carrying a lantern and came right into the field.

"Here is a fine big fellow," said some one; "it is big enough for a moon; let us take this one."

"So they picked up the big pumpkin and off they went and the next night what should all the pumpkins see far up in the sky looking down upon them and smiling but their big brother, the pumpkin that had been carried off the night before, so when you complain of being lowly just wait until the moon comes out and behold your ancestor far above the world and hold up your heads with pride."

Just then the moon came out from behind a cloud and all the pumpkins looked up at it. "He does look like us," said one; "but none of us seem to be smiling as he is."

"He is smiling, I expect, because he can see us down here and is thinking how handsome we are and is proud of us; but if you all complain as you were doing to-night you may grow wrinkled and ugly and our ancestor will stop smiling."

"So if you wish to be proud of him up there in the sky you must stop fretting and keep him smiling."

There was no more complaining in the field. Each pumpkin felt it owed a duty to its ancestor smiling down at them and they all began to grow as handsome and big as the wise big pumpkin that had told the story.

Are You a Born
Advertiser?

Certain merchants get a reputation
for being born advertisers.

They may have earned the reputa-
tion. They were not born that way.
Their particular genius has lain in
the fact that, having marvelous faith
in the power of Daily Newspaper
Advertising, they went ahead with it
regardless of immediate results.

They had courage. And the cour-
ageous advertiser gets the greatest
rewards.

There are those whose temperament
is not suited to Napoleonic tactics.
Neither will their product or pocket-
book permit them to use these tac-
tics even if they were so inclined.

Daily Newspaper Advertising is as
another brain to the sales force of
these men. It is the one medium
from which they get quick and ac-
curate returns; and are so able to
repeat their advertisements as often
as conditions warrant, and the treas-
ury justifies.

This is particularly true at this
time of the year when the season, the
weather, the change of fashion, the
state of public mind and attitude of
competitors, all combine to affect
daily sales.

The born advertiser is not neces-
sarily the large space advertiser nor
does he have to have more than one
thing to advertise.

If he is quick to seize every incident
in his daily life and capitalize it in
his next day's advertising—the pub-
lic will soon pay him that tribute of
admiration expressed in the words
"a born advertiser."

Canadian Champion Had
Another Close Call

Vancouver Player Is Back to
His Old Form

Toronto, July 14.—The tennis in the
Dominion championship was filled
with thrills yesterday. Paul Bennett,
the present Canadian champion, had
another close call. The New Yorker,
Chambers, won the first set, 6-3.
Bennett tried his usual rushing tac-
tics and Chambers passed him or shot
the ball at his feet as he was coming
up. In the second set, Chambers led,
5-2, and twice was within a point of
the match. Bennett steadied down
when the match looked lost and won
the second set, 8-6. Chambers was
too exhausted to continue and de-
faulted the game to Bennett. The
latter played a plucky uphill game in
the second set.

Rhodes, of Vancouver, dropped a
set to Morrin, of Montreal, whose
placing was very good. Rhodes played
an improved game today. His
shooting was distinctly high class.

A Great Double.
One of the greatest double matches
ever seen in Toronto took place be-
tween Peach and Todd, the Aus-
tralians, and the Cleveland star pair,
Carran and Bartel. After nip and
tuck play, the Australians took the
first set, 7-5, but the United States
players excelled in the second frame
to win, 6-4. A desperate struggle en-
sued but the Australians won, 11-9,
faster Bartel had weakened slightly.

Al Rossi and Rennie were beaten by
Bates and Levy, the California pair,
who have beaten McLaughlin and
Bundy. The Toronto pair put up a
great game against one of the
strongest pairs in America. Mrs.

McKinley, of Ottawa, beat Peak, of
Winnipeg. The westerner defaulted
after the score was 10-5 against him
in the first set.

FINANCIAL NEWS

TO-DAY'S TRADING IN
WINNIPEG MARKETS

Winnipeg, July 14.—The local wheat
market was irregular to-day. After the
lower opening there was further reaction,
but during the last hour considerable
strength developed and prices advanced
rapidly. Crop reports were the chief factors
in the advance. July dropped to 17 1/2¢, but
on the advance during the last hour rose
to 18 1/2¢ and closed with a gain of 1 1/2¢.
October reached 14 1/2¢ on the rally
and closed 4 cents higher.

Cash wheat, with the exception of a
little buying early in the session by Cana-
dian mills, was not in demand to-day. The
trade volume was small and the premiums
weak, being 2 1/2 to 3 1/2 cents
active. The cash oats market was fairly
well supplied with a good export business re-
ported. Barley showed a better demand
today, but the offerings continued light.
The flax and rye situation was unchanged.
The coarse grain future market was
active in line with wheat. Oats closed 1
to 1 1/2 cents higher; barley 1/2 to 1 1/2 cents
higher; flax unchanged to 1/2 cent lower,
and rye unchanged to 1 cent higher.

FACTS ON CHARGE AGAINST TEACHER

Trustees Want Information on Religious Doctrine Charge

Before considering charges that an unnamed High School teacher is introducing religious doctrine into his teaching, the City School Board will endeavor to get full information on the subject.

Last night the Board decided to ask Rev. Joseph McCoy, who launched the charges against the teacher, to make his allegations more definite. Until Mr. McCoy can reply no action will be taken on a letter from the Ministerial Association received last night protesting against the alleged action of the teacher in question.

Answers Sought.
The questions which the Board, at the suggestion of Trustee J. L. Beck with, will ask Mr. McCoy are as follows:

Who is the teacher in question?
What was the statement complained of?
When and under what circumstances were such statements made?
What is the objection to the statements?

Who is Mr. McCoy's informant?
It is not very often that a correspondent in a newspaper is prepared to put his name to such a serious matter as this, and I think we are fortunate in this case," said Mr. Beckwith. "When we get answers to these questions we shall be able to act very intelligently."

"This is a very serious matter, but I don't see why we should ask so many questions," Mr. Coady Johnson objected. "I would like to know the name of the teacher."

"The name is not mentioned in the letter," Chairman Dr. Raynor pointed

TRUSTEES DEFER APPOINTMENT OF NEW INSPECTOR

Special Meeting Friday Will Name City School Head

Appointment of a new Municipal School Inspector was deferred by the City School Board last night in order that the trustees might have an opportunity to talk the matter over among themselves at leisure. A special meeting of the Board will be held Friday night to make the appointment.

When the Board met last night Trustee Mrs. Andrews' chair was empty. The other Trustees were not surprised in view of the events which transpired at the Board's last meeting when Trustee George Jay declared that Mrs. Andrews, being the wife of a High School teacher, had no right to retain her seat as a trustee. When the Board had cleared away routine business and was about to appoint a Municipal Inspector, however, Secretary W. F. C. Pope announced that Mrs. Andrews, although ill, was waiting in an outside office. After a short pause Trustee Mrs. Coady Johnson left the Board room and returned with Mrs. Andrews, who, it was very obvious to her colleagues, had been upset by the recent troubles of the Board and who appeared against her doctor's orders.

Wants Legal Ruling.
Before sitting down Mrs. Andrews said, "I will ask Mr. Chairman, that the secretary read the ruling by Bodwell & Lawson in 1918 on my candidature."

Would Defer Action.
While Mr. Pope was looking for the document desired by Mrs. Andrews Trustee Beckwith moved that the appointment of a Municipal Inspector be deferred. "I ask this in the light of a favor," he said, "as I have not had an opportunity to look over the applications for the position. It is most important that in so important a position as this all the applications should be very carefully scanned. Trustee Mrs. Spofford seconded the motion. One application, she said, had been received during the evening and no one had been able to look into it."

Trustee Mrs. Coady Johnson protested that the Trustees had plenty of time to make up their minds on the appointment, but she secured no support.

Against Doctor's Orders.
"I have come to the School Board meeting at a great personal sacrifice," said Mrs. Andrews. "with the understanding that a Municipal Inspector would be appointed. I am here against the orders of my physician. But I consider it one of the most important decisions we have to fill. Everyone knew the appointment was to be made to-night. I think the idea of postponing it is most unreasonable."

Must Not Delay.
"I am quite prepared to go on this evening," said Trustee Jay, "but, at the same time, I am quite willing to accede to the wishes of the other members of the Board providing the appointment is made this week. It is of the greatest importance that an appointment should be made at once for this reason: If we defer it we must also defer the appointment of teachers to the High School because we want to have the Inspector's report on that matter. The longer we defer the appointments to the High School the smaller choice of teachers we shall have. Soon the best teachers will be appointed to other positions and we shall lose them."

Mrs. Andrews Leaves.
The Beckwith motion deferring the appointment of an inspector was then carried. Secretary Pope was unable to find the legal ruling which Mrs. Andrews wanted produced. Mrs. Andrews therefore asked to be excused and left the room.
